

Introducing the Miller Elite™ Limited Edition Series I United Association Helmet

Stk # 229 364
UA Special Pricing \$269

In conjunction with the United Association, Miller Electric Mfg. Co. has designed this exclusive Limited Edition Series I - United Association Auto-Darkening Welding Helmet. While quantities last, Miller is pleased to offer this unique welding helmet to UA members nationwide.

- Four independent arc sensors provide continuous arc-sensing capability and responds to extremely low amperage TIG arc (5 amps).
- Battery-powered with solar-assist for exceptionally long life (3,000 hours on MIG), no recharging required. Low-battery indicator is built-in.
- The Elite™ welding helmet features a 30% larger viewing area. Advanced Lens Technology requires no recharging!
- **NEW!** Auto-On makes this helmet conveniently ready-to-weld.
- **NEW!** Grind Mode selection option now included.
- Helmet meets ANSI Z87.1 Impact Safety Standards
- 2-Year Warranty through your Miller Distributor.
