

A New Online Tool for Building Your Own Industrial System

Point & Click to Create a
Complete Welding System!

Equip to Weld Delivers:

- **Fast, Easy & Accurate System Configuration**
- **A Smart System** that only displays options that work together
- **Necessaries™** — Secondary cables, primary cable, gas hoses, regulators and quick connectors
- **Customization to Fit Your Needs**
- **Customize Your Feeder Components**
- **Customize your Secondary Cables**
- **List Prices Available 24/7**
- **Fast & Convenient Delivery** — Standard items typically ship the same day, and most custom orders ship within 48 hours

MillerWelds.com/equiptoweld

Here's How it Works

Equip to Weld is so simple, all you have to do is go to MillerWelds.com/equiptoweld and get started.

It's a guided tool that walks you through the selection process with 7 easy steps. Equip to Weld includes components, such as connectors and cables that are considered accessories, that are necessary to build a complete welding system that is ready to weld.

Step 1—Select Your Power Source

Narrow the search. Filter by amperage **OR** model.

Select a power source from the dropdown menu. Applicable options will display as you go.

Click headers to sort.

Stock Number	Description	Price
903254	DIMENSION 452 60HZ 200/230/460 (MACHINE ONLY)	\$4,820.00
903255	DIMENSION 452 60HZ 230/460/575 (MACHINE ONLY)	\$4,820.00
9032650113	DIMENSION 452 W/RUNNING GEAR, CYL BACK, AND COVER	\$5,260.00

Stock No.	Item Price	Qty.	Item Total
903255	\$4,820.00	1	\$4,820.00
Running Total			\$4,820.00

Notice floating window with running totals.

Select any *Necessaries*[™] you need for your power source.

Step 2—Select Your Primary Cable*

Simply select the input voltage you'll be using.

Primary cable is not attached to power source.

Then select the length you need to fit your weld cell. The cable size is automatically customized to the power source and input voltage you've selected.

*Note: Custom cables and hoses are non-cancellable and non-returnable.

Step 3 — Select Your Feeder

Narrow the search. Determine the style of feeder you need.

Then select feeder.

Stock Number	Description	Price	QTY
166699	MIGmatic™ II-25, 250 A, 15 ft	\$0.00	1
Q2015AB0EM	BERNARD Q-GUN 200 AMP, 15FT .045 MILLER	\$0.00	+
Q3015AE0EM	BERNARD Q-GUN 300 AMP, 15FT .045 MILLER	\$0.00	+
Q3015AE0HM	BERNARD Q-GUN 300 AMP, 15FT .052 MILLER	\$0.00	1
M3015-45	TREGASKISS TOUGH GUN, 350 AMP 15FT .045 WRE	\$0.00	+
M3015-52	TREGASKISS TOUGH GUN, 350 AMP 15FT .052 WRE	\$0.00	+
M4015-45	TREGASKISS TOUGH GUN, 450 AMP 15FT .045 WRE	\$0.00	Change 1
300703	CUSTOMER CONFIGURED BERNARD QVN	\$0.00	QTY
300704	CUSTOMER CONFIGURED TREGASKISS GUN	\$0.00	+

Select from standard gun options.

OR

Customize your own gun.

Get the performance you need with the MIG gun of your choice.

Select any 'Necessaries' you need for your feeder.

Step 4 — Select Your Secondary Cables*

The required cable size depends on amperage and total cable length in the weld circuit. Use the 'Recommend' feature or choose the size you need.

Weld cable size and proper crimping/ torques are critical aspects in attaining a high level of arc quality.

Machine crimped.

Cable ends match your prior system selections and Miller recommendations OR customize to fit your needs.

Option 1: 243141030 CABLE, WELD 4/0 BLK W/F DIN & TERM 1/2IN \$199.01

Option 2: 243220930 CABLE, WELD 4/0 BLK W/TERM 1/2IN & CLP 600A C T \$245.00

Precision torqued.

*Note: Custom cables and hoses are non-cancellable and non-returnable.

Step 5— Select Your Regulator & Gas Hose*

Choose from several different Smith Equipment gas regulator and flowmeter options.

Select gas hose. Choose from 1/4" or 5/16" ID. Then choose standard or custom length.

*Note: Custom cables and hoses are non-cancellable and non-returnable.

Step 6— Select System-Related Accessories

Select any *Necessaries™* you need to complete your system.

Step 7— System Complete: Get your List Price Quote

The Summary Page provides an easy-to-read List Price quote.

Equip to Weld remembers your previous quotes and allows you to review and/or change them. Just type the System ID within the Equip to Weld home page.
