TITANIUM 9400i
Features integrated grinding shield

Redefining Welder Protection.

CONTACT Your Distributor Sales Rep **TODAY!**

For **industrial** welding and grinding applications our new Titanium™ Series Welding Helmets will not be outperformed.

We started with a shell design that provides excellent skin coverage, is lightweight for extended wear, reflects radiant heat and has a quick-release front cover lens to **reduce welder downtime**. Combine that with our top-performing lenses protected by Miller's exclusive aluminum heat shield secured within a durable shock-absorbing gasket and you have a welding helmet that is made to **withstand rugged** abuse common in your workplace.

	TITANIUM 1600	TITANIUM 7300	TITANIUM 9400	TITANIUM 9400i
