

Multimatic® 255 Multiprocess Welder

- **Print page**
- **Cut on blue line around machine**
- **Fold on inside blue lines**
- **Glue tabs to assemble**

Multimatic® 255

How does the Miller® Welder help people?

Mike the mechanic is fixing an old classic convertible for another family to enjoy on the weekends. He uses his Multimatic to weld newly cut metal pieces so he can weld back into the body and make them look as good as new. Mike loves his Multimatic because he can use different welding process on any material the car may need repaired. He can make MIG welds, TIG welds and stick welds too! That way Mechanic Mike only needs one welding machine to fix all the problems he finds hiding in old cars.
