

# DON'T MAKE THE **JOB HARDER** THAN IT HAS TO BE.

YOU HAVE OPTIONS TO  
**PREVENT FRUSTRATION,**  
DISCOMFORT AND INJURIES.

Climbing into the truck to access equipment isn't ideal. By the end of the day, it can be exhausting. Even worse, slips, trips and falls can cause

## SERIOUS INJURIES.

A loud air compressor isn't just irritating to listen to all day. It can make work

## LESS SAFE.

Unreliable equipment that's always breaking down means missed deadlines, angry customers and longer days.

## IT'S BEYOND FRUSTRATING.

Idling a diesel truck engine to run jobsite tools or keep the cab comfortable can clog the DPF. If that happens, the service tech can be

## STRANDED AT THE JOBSITE.

Service techs deserve better. Don't risk their safety, comfort or productivity. Give them the best all-in-one power system to work with — so at the end of the day, they can leave work the same way they arrived.
