Big Blue® 800 Series

Heavy Industrial Applications
Pipe welding
Maintenance and repair rigs
Mechanical contractor
Construction
Mining maintenance
Railroad maintenance

Processes
Stick (SMAW)
MIG (GMAW)*
Flux-cored (FCAW)*
RMD**
Pulsed MIG (GMAW-P)**
DC TIG (GTAW)
Submerged arc (SAW)
Stud welding — 1/2 inch (13 mm)
Air carbon arc (CAC-A)
1/2-inch (13 mm) carbons

Output Range
Single weld mode CC: 40–800 A, CV: 15–50 V
Dual weld mode CC: 20–400 A, CV: 15–50 V

Generator Output Rated at 104°F (40°C)
3-phase 27,000 watts peak, 20,000 watts continuous
1-phase 15,000 watts peak, 12,000 watts continuous

The most powerful lineup of diesel welder/generators in the industry.
The Big Blue 800 Series offers 800 amps of weld power and 27,000 watts of peak generator power and is ideal for dual-operator applications on labor intensive jobsites, or jobsites with limited space.

Heavy-duty low-speed T4F and T4i industrial diesel engines.
The cleanest, greenest diesel power available. Utilizes diesel oxidation catalyst (DOC) technology in T4F models to keep the air clean with NO exhaust aftertreatment maintenance.

WIRELESS INTERFACE CONTROL
Full control of your machine in the palm of your hand. See page 3.

DYNAMIC
Optimized arc control for stick welding applications. See page 3.

ArcReach
Parameter control at the wire feeder or pendant without needing a control cord. See page 3.

Big Blue® 800 Duo Pro
Multioperator work platform delivers two premium arcs (up to 400 amps each) allowing welding operators to work independently with no arc interaction.

Big Blue® 800 Duo Air Pak™
All-in-one welder/generator eliminates the need for an auxiliary air compressor. The industrial Ingersoll Rand screw-type air compressor is ideal for gouging and running pneumatic tools.

The Big Blue 800 Series offers 800 amps of weld power and 27,000 watts of peak generator power and is ideal for dual-operator applications on labor intensive jobsites, or jobsites with limited space.

Big Blue® 800 Duo Air Pak™
All-in-one welder/generator eliminates the need for an auxiliary air compressor. The industrial Ingersoll Rand screw-type air compressor is ideal for gouging and running pneumatic tools.
Big Blue® 800 Series Features

Digital meters with SunVision™ technology enable welding parameters to be viewed with greater clarity than analog meters — at virtually any angle. Meters can be seen clearly even in direct sunlight.

Standard 14-pin receptacle with Auto-Remote Sense™ for simple connection of remote controls and wire feeders.

Vandalism lockout. Lockable hinged steel panels cover and protect name plate, gauges and ignition switch (padlock included).

Simple paralleling switch makes switching from a single operator to dual operators a breeze. Weld up to 400 amps per side when set up in dual-operator mode, or up to 800 amps in single-operator mode.

Ingersoll Rand ultra-reliable industrial rotary screw compressor (Air Pak™ models only). 30,000-hour life expectancy. Independent on/off control for applications not requiring compressed air — allows greater fuel savings and longer compressor service intervals.

Arc control is beneficial when welding with stick and solid wires for easier fine-tuning of tough-to-weld materials and out-of-position applications.

Electronic engine display simultaneously displays fuel level, engine hours, coolant temperature, oil pressure, battery volts, engine rpm, and air pressure. It also tracks oil change intervals, compressor hours, and displays engine diagnostics for quick and easy servicing.

20,000 watts of pure generator power. Plug in an extra Miller® inverter-based power source for a second welding arc.

Industrial USB port. Quickly upload the latest software and download machine log files.

HD powder coat with zinc-rich primer protects sheet metal from rust and corrosion.

Standard features include ArcReach® technology, digital preset weld meters, automatic idle, 120-volt block heater and Dynamic DIG™.

Welder Truck Specific Models

The Big Blue 800 Duo Air Pak (USA model only) is available in welder truck specific models, which have the critical controls and side A controls located within easy reach of a ground-based operator when the machine is mounted on the bed of a large-body truck. This version also includes standard hardware upgrades including ArcReach® remote control technology, air cleaner restriction indicators, FA-1D lockable flame arrestor fuel cap 043947 and spark arrester 195012. The rear-mounted desiccant air dryer system 195117001 is available as a field installation option.

The lower control panel has the following controls: air compressor on/off switch and engine control switch.

Pair any Miller® ArcReach accessory for complete remote control of welding processes and parameters right at the weld joint.
Big Blue® 800 Series Technologies

Dynamic DIG™ technology

**Ultra-adaptive arc control.** Unlike conventional DIG that provides a preset amount of short-clearing current, Miller-exclusive Dynamic DIG technology works on a time-based algorithm that automatically adjusts the amount of current required to clear a short. Delivers a smoother more consistent arc that can be tailored to match application, material, fit-up and welder technique.

ArcReach® technology

**Parameter control at the wire feeder or pendant without needing a control cord.**

An ArcReach system allows you to change weld settings from your ArcReach feeder or Stick/TIG remote, saving a trip to the power supply. ArcReach technology uses the existing weld cable to communicate welding control information between the feeder or Stick/TIG remote and the power source. This technology eliminates the need for control cords, and their associated problems and costs.

ArcReach-equipped power sources work with non-ArcReach accessories; however the ArcReach benefit is only realized with the complete ArcReach system. This includes an ArcReach-equipped machine and one or more of the following accessories:

- ArcReach SuitCase feeder
- ArcReach Smart Feeder
- ArcReach Stick/TIG Remote

See pages 6 and 7 for more information.

Wireless interface control (option)

**Work hassle-free with full welder/generator control in the palm of your hand.**

With wireless interface control, you can remotely switch between welding processes, adjust parameters, select and save preset programs, turn the machine and air compressor on/off, get service reminders and more from wherever you are on the jobsite — for a more productive day.

Extend time between fill ups and maintenance intervals while eliminating the need to go back to your machine or climb into the truck to make adjustments.

Wireless interface control is a factory-installed option available on the Big Blue 800 Series. Big Blue 800 Duo Series machines include two remote pendants so both operators have full control of their processes and parameters.

VIEW STATUS
View engine status, fuel level, battery charge level of remote and air compressor on/off.

SELECT PROCESSES
View and select between all available processes.

CONTACTOR ON/OFF
Turn contactor on/off manually in remote welding mode.

ENGINE ON/OFF
Turn engine on/off with remote.

CUSTOM PROGRAMS
Save custom presets in up to four programs and easily switch between pre-programmed settings.

FINE-TUNE ARC
Quickly adjust and save arc control settings including DIG, DIG range inductance and Auto-Stop.

AMP/VOLT ADJUST
Adjust amperage or voltage, by increments or percentage while welding.

Big Blue® 800 Series Benefits

Easily update technology

With the industrial USB port, you can easily upload the latest software and download machine log files to retrieve in-depth information from your machine such as diagnostics and statistics.

Visit MillerWelds.com/support to download the latest software updates.

Multi-arc welding

Multioperator welding has never been easier or more versatile. One dependable engine, two independent arcs with up to 400 amps each. Or plug in additional inverters for a true multioperator work platform. For example, you can add two XMT™ multiprocess machines to allow four operators to weld with up to 200 amps each. Premium quality arcs allow operators to work independently with no arc interaction.

More arcs provide better fuel economy, improve efficiency and increase profits. You can save about 34 percent with a dual-operator unit versus two single-operator units.

Jobsite safety

Reduce the need to walk back to or climb into the truck bed to make process and parameter changes, or turn your machine on/off. ArcReach® technology provides parameter control at the wire feeder or Stick/TIG remote and optional wireless interface control provides full front panel control in the palm of your hand, so you can lower the risk of encountering potential jobsite hazards.

[Notes and certifications]

- *Meets NEMA and IEC ratings.
- **Sense voltage for stick and Lift-Arc™ TIG.
- ***Will operate either 60 Hz or 50/60 Hz power tools, lights, etc.

Certified by Canadian Standards Association to both the Canadian and U.S. Standards.
1. Self-calibrating digital weld meters with fault code indication display preset or actual weld parameters.

2. Weatherproof Lexan® nameplate is super durable and resists cracking and fading.

3. Operator controls. Independent controls for multi-arc welding. “A” controls are for single operator and “B” controls are for a second operator.

4. Weld process selection switch

5. Pushbutton main control knob used for adjusting amperage/voltage, adjusting arc control, and accessing the service menu.

6. Adjustable arc control adjusts DIG when process control is in stick modes and adjusts inductance when process control is in FCAW or MIG modes. The amount of DIG determines how much amperage (heat) varies with stick arc length. Inductance determines the “wetness” of the weld puddle.

7. Electronic engine display can display fuel level, engine hours, coolant temperature, oil pressure, battery volts, engine rpm, air pressure, and compressor hours simultaneously or one at a time. Also tracks oil change intervals and displays engine diagnostics for service technicians.

8. USB port allows software updates from a USB drive. A summary file of recorded data from the unit will be saved to a USB drive that is inserted.

9. Air compressor on/off switch (Air Pak™ models only)

10. Engine control switch is used to start engine and then select between auto idle and high speed lock. Glow plug operation is controlled by the engine control module and automatically occurs as needed by ambient conditions.

12. Separate/parallel switch. Use switch to select single operator mode (A) or dual operator mode (A/B).

13. Weld output terminals

14. 50 A, 240 V, three-phase receptacle
   (For matching plug, order 254140.)

15. 50 A, 120/240 V receptacle (For matching plug, order 119172.)

16. 20 A, 240 V receptacles

17. 20 A, 120 V receptacles with ground fault

18. 50 A circuit breaker

19. 20 A, 240 V circuit breaker

20. 20 A, 120 V circuit breakers

21. 20 A, 120 V receptacles with ground fault

22. 240 V earth leakage circuit breaker

23. 32 A, 400 V three-phase receptacle
   (For matching plug, order 255421.)

24. 30 A, three-phase circuit breaker

25. 120 and 240 V circuit breakers

26. 16 A, 120/240 V receptacles
   (For matching plugs, order 255419 for 120 V and 255416 for 240 V.)
**Genuine Miller® Accessories**

**Wireless Interface Control Protective Covers**
287594 Field
Five-pack of screen protectors for wireless interface control remote.

**Desiccant Air Dryer System**
Field
195117 Side mount
195117001 Rear mount
*For Air Pak™ models only.* A regenerating inline air dryer system that eliminates moisture in the air stream to prevent tool freeze-ups in cold climates. Internal thermostat and heating elements ensure good air quality in all climates. The system can be mounted on the side or on the rear of the machine to meet your installation requirements.

**Full KVA Adapter Cord**
300517 Field
NEMA 14-50P to NEMA 6-50R. Adapts engine drive 120/240 V plug to common Millermatic® and Spectrum® 240 V plug.

**Full KVA Plug Kit**
119172 Field
1-phase, 120/240 V, 50 A plug (NEMA 14-50P)
254140 3-phase, 240 V, 50 A plug (NEMA 15-50P)

**International Plugs**
Field
255416 1-phase, 240 V, 16 A plug
255421 3-phase, 400 V, 32 A plug

**Engine Filter Kits**
Field
262459 For USA models
246988 For International models
Includes all filters required for proper engine maintenance. Oil filter, primary and secondary fuel filter, and primary air filter.

**Compressor Kit**
279121 Field
*For Air Pak models only.* Includes oil and all filters required for proper compressor maintenance. Oil filter, air filter and coalescing filter.

**Spark Arrestor Kit**
195012 Field
Prevents particles from leaving the muffler that could potentially start a fire. Mandatory when operating on California grasslands, brush, or forest-covered land, and in all national forests. For other areas, check your state and local laws. Meets U.S. Forest Service standard 5100-1B.

**MIG (GMAW) or Flux-cored (FCAW)**

**ArcReach® Smart Feeder**
951733 Field
For use with ArcReach models only (see page 3 for more information). Includes drive rolls and Bernard® PipeWorx 300-15 MIG gun.
For MIG, FCAW, and advanced RMD® and pulse processes. See literature M/6.55.

**Spoolmatic® 30A**
130831 Air-cooled, 200-amp, spool gun for aluminum and stainless MIG. See literature M/1.73. Requires WC-24 Control (137549).

**XR® Wire Feeders and Guns**
Push-pull system designed to handle difficult-to-feed soft alloy wires such as aluminum. See literature M/1.7 through M/1.74.

**AC TIG (GTAW) Welding**

**Dynasty® 210 Series**
For portable AC/DC TIG. See literature AD/4.81.
Plasma Cutting

Spectrum® 375 X-TREME™ 907529
See literature PC/9.2.
Spectrum® 625 X-TREME™ 907579
See literature PC/9.6.
Spectrum® 875  907583
See literature PC/9.8.
The Spectrum 375 X-TREME and 625 X-TREME come complete with protective X-CASE™ (not shown).

Stick/TIG Remote Controls

ArcReach® Stick/TIG Remote 301325
When paired with an ArcReach power source, provides remote control of the power source without a cord — saving time and money. See literature AY/14.5.

Wireless Remote Hand Control 300430
For remote current, voltage and contactor control. Receiver plugs directly into the 14-pin receptacle of Miller machine. 300-foot (91.4 m) operating range. Wireless antenna kit 300749 recommended.

Wireless Antenna Kit 300749
Optional when improved reception is desired.

Stick/TIG Remote Controls

ArcReach® Stick/TIG Remote 301325
When paired with an ArcReach power source, provides remote control of the power source without a cord — saving time and money. See literature AY/14.5.

Wireless Remote Hand Control 300430
For remote current, voltage and contactor control. Receiver plugs directly into the 14-pin receptacle of Miller machine. 300-foot (91.4 m) operating range. Wireless antenna kit 300749 recommended.

Wireless Antenna Kit 300749
Optional when improved reception is desired.

4 West Four-Wheel Steerable Off-Road Trailer 042801
A heavy-duty 2,550-pound (1,157 kg) capacity trailer designed for use in mines, quarries, and other rough terrain. Has narrow 22-foot (6.7 m) turning radius. Includes 3-inch (76 mm) lunette eye, universal hitch and safety chains.

HWY-225 Trailer 301338
A 2,700-pound (1,225 kg) capacity highway trailer with welded steel tubing frame, heavy-duty axle with roller bearing hubs and leaf-spring suspension. Includes jack stand, fenders, lights, and dual hitch with 2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye.

Cable Tree 043826
For use with HWY-225. Provides an area to conveniently wrap weld cables and extension cords.

Dual Hitch 301441
For use with HWY-225. 2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye in one reversible assembly.

2-In-1 Document/Fire Extinguisher Holder 301236
For use with HWY-225. Stores documents and holds a 5-pound fire extinguisher. Note: Holder shown mounted on trailer. Fire extinguisher not included.

RHC-14 Hand Control 242211020
Miniature hand control for remote current, voltage and contactor control. Dimensions: 4 x 4 x 3.25 inches (102 x 102 x 82 mm). Includes 20-foot (6 m) cord and 14-pin plug.

Extension Cables for 14-Pin Remote Controls or 24 VAC Wire Feeders
242208025  25 ft. (7.6 m)
242208050  50 ft. (15.2 m)
242208080  80 ft. (24.4 m)

Wireless Remote Hand Control 300430
For remote current, voltage and contactor control. Receiver plugs directly into the 14-pin receptacle of Miller machine. 300-foot (91.4 m) operating range. Wireless antenna kit 300749 recommended.

Wireless Antenna Kit 300749
Optional when improved reception is desired.

Trailers and Hitches (Note: Trailers are shipped unassembled.)

4 West Four-Wheel Steerable Off-Road Trailer 042801
A heavy-duty 2,550-pound (1,157 kg) capacity trailer designed for use in mines, quarries, and other rough terrain. Has narrow 22-foot (6.7 m) turning radius. Includes 3-inch (76 mm) lunette eye, universal hitch and safety chains.

HWY-225 Trailer 301338
A 2,700-pound (1,225 kg) capacity highway trailer with welded steel tubing frame, heavy-duty axle with roller bearing hubs and leaf-spring suspension. Includes jack stand, fenders, lights, and dual hitch with 2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye.

Cable Tree 043826
For use with HWY-225. Provides an area to conveniently wrap weld cables and extension cords.

Dual Hitch 301441
For use with HWY-225. 2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye in one reversible assembly.

2-In-1 Document/Fire Extinguisher Holder 301236
For use with HWY-225. Stores documents and holds a 5-pound fire extinguisher. Note: Holder shown mounted on trailer. Fire extinguisher not included.

Wireless Remote Hand Control 300430
For remote current, voltage and contactor control. Receiver plugs directly into the 14-pin receptacle of Miller machine. 300-foot (91.4 m) operating range. Wireless antenna kit 300749 recommended.

Wireless Antenna Kit 300749
Optional when improved reception is desired.
