# Big Blue® 800 Series

**Processes**
- Stick (SMAW)
- MIG (GMAW)*
- Flux-cored (FCAW)*
- RMD**
- Pulsed MIG (GMAW-P)**
- DC TIG (GTAW)
- Submerged arc (SAW)
- Stud welding — 1/2 inch (13 mm)
- Air carbon arc (CAC-A)
  1/2-inch (13 mm) carbons

**Output Range**
- Single weld mode CC: 40–800 A, CV: 15–50 V
- Dual weld mode CC: 20–400 A, CV: 15–50 V
- Generator Output Rated at 104°F (40°C)
  - 3-phase 27,000 watts peak, 20,000 watts continuous
  - 1-phase 15,000 watts peak, 12,000 watts continuous

**Heavy Industrial Applications**
- Pipe welding
- Maintenance and repair rigs
- Mechanical contractor
- Construction
- Mining maintenance
- Railroad maintenance

### Quick Specs

**Heavy-duty low-speed T4F and T4I industrial diesel engines.**

The cleanest, greenest diesel power available. Utilizes diesel oxidation catalyst (DOC) technology in T4F models to keep the air clean with NO exhaust aftertreatment maintenance.

**Increased efficiency.** More arcs and better fuel economy equal increased profits for your business. Estimated savings are 34 percent with a dual-operator unit versus two single-operator units.

**ArcReach**

Remote control of the power source without a cord. See page 3.

**Dynamic Dig**

Optimized arc control for stick welding applications. See page 2.

---

**The most powerful lineup of diesel welder/generators in the industry.**

All offer robust output for welding and power generation, and are ideal for dual-operator applications on labor intensive jobsites, or jobsites with limited space.

**More power.** 800 amps of weld power and 27,000 watts of peak generator power.

**Multi-arc welding.** One dependable engine — two independent arcs with up to 400 amps each. Or plug in additional inverters for a true multioperator work platform! Example: Two additional XMT® multiprocess machines equals four operators, up to 200 amps each. Premium quality arcs allow operators to work independently with no arc interaction. Multioperator welding has never been easier or more versatile.

**Heavy-duty low-speed T4F and T4I industrial diesel engines.**

The cleanest, greenest diesel power available. Utilizes diesel oxidation catalyst (DOC) technology in T4F models to keep the air clean with NO exhaust aftertreatment maintenance.

**Increased efficiency.** More arcs and better fuel economy equal increased profits for your business. Estimated savings are 34 percent with a dual-operator unit versus two single-operator units.

**ArcReach**

Remote control of the power source without a cord. See page 3.

**Dynamic Dig**

Optimized arc control for stick welding applications. See page 2.
Big Blue 800 Series Features

Digital meters with SunVision™ technology enable welding parameters to be viewed with greater clarity than analog meters — at virtually any angle. Meters can be seen clearly even in direct sunlight.

Standard 14-pin receptacle with Auto-Remote Sense™ for simple connection of remote controls and wire feeders.

Dynamic DIG™ technology automatically adjusts the amount of current required to clear a short based on user settings. Delivers a smoother, more consistent arc that can be tailored to match the application, material, fit-up and welder technique.

Vandalism lockout. Lockable hinged steel panels cover and protect name plate, gauges and ignition switch (padlock included).

Simple paralleling switch makes switching from a single operator to dual operators a breeze. Weld up to 400 amps per side when set up in dual-operator mode, or up to 800 amps in single-operator mode.

Ingersoll Rand ultra-reliable industrial rotary screw compressor (Air Pak™ models only). 30,000-hour life expectancy. Independent on/off control for applications not requiring compressed air — allows greater fuel savings and longer compressor service intervals.

Arc control is beneficial when welding with stick and solid wires for easier fine-tuning of tough-to-weld materials and out-of-position applications.

Electronic engine display simultaneously displays fuel level, engine hours, coolant temperature, oil pressure, battery volts, engine rpm, and air pressure. It also tracks oil change intervals, compressor hours, and displays engine diagnostics for quick and easy servicing.

Industrial USB port. Quickly upload the latest software and download machine log files to retrieve in-depth information such as diagnostics and machine statistics.

20,000 watts of pure generator power. Plug in an extra Miller® inverter-based power source for a second welding arc!

HD powder coat with zinc-rich primer protects sheet metal from rust and corrosion.

Standard features include ArcReach® technology, digital preset weld meters, automatic idle and 120-volt block heater.

Welder Truck Specific Models

The Big Blue 800 Duo Air Pak (USA model only) is available in welder truck specific models, which have the critical controls and side A controls located within easy reach of a ground-based operator when the machine is mounted on the bed of a large-body truck. This version also includes standard hardware upgrades including ArcReach® remote control technology, air cleaner restriction indicators, FA-1D lockable flame arrestor fuel cap 043947 and spark arrestor 195012. The rear-mounted desiccant air dryer system 195117001 is available as a field installation option.

The lower control panel has the following controls: air compressor on/off switch and engine control switch.

Pair any Miller® ArcReach accessory for complete remote control of welding processes and parameters right at the weld joint.
ArcReach® Remote Control Technology

Remote control of the power source without a control cord.
An ArcReach system allows you to change weld settings from your ArcReach feeder or remote, saving a trip to the power supply. ArcReach technology uses the existing weld cable to communicate welding control information between the feeder or remote and the power source. This technology eliminates the need for control cords, and their associated problems and costs.

Big Blue® ArcReach® Additional Features

ArcReach provides remote amperage and voltage control at the weld joint without needing a control cord.

- More arc-on time and reduced exposure to workplace hazards for operators can be realized using ArcReach because less time is spent going back to the welding power supply to set process and arc amperage or voltage.
- Auto-Process Select. Depending on connected accessory, the system automatically changes to stick or MIG/FCAW (with gas) if electrode positive polarity is detected or TIG or FCAW (no gas) if electrode negative polarity is detected, when ArcReach communication is established between the accessory and the Big Blue — reducing the need to access the power supply.
- Automatic return to panel settings. System automatically returns to Big Blue setting when ArcReach communication is terminated. For example, if the Big Blue is set to gouging at 500 amps and an ArcReach feeder is connected, the Big Blue will go to a MIG/FCAW process. If the feeder is disconnected, the Big Blue will go back to its previous setting (gouging at 500 amps).
- Less operator fatigue by not needing to move or reposition heavy secondary weld leads bundled with control cords on the jobsite. Control cables are not used.

- Operator can precisely set arc amperage or voltage at the weld joint and monitor the actual arc voltage and current delivered to the weld using the digital meters on the accessory. This removes guesswork when it comes to adhering to weld procedures.
- Remote override of Big Blue. When an ArcReach accessory is connected to a Big Blue the accessory has full control and the Big Blue controls are disabled. While under ArcReach control, process and voltage/amperage adjustments are locked out, preventing accidental changes by personnel other than the welding operator.

- Save time by no longer needing to troubleshoot welding system problems that result from damaged control cords.
- Eliminate costly control cord repairs because control cords are not used.

- Cross platform compatible. The same ArcReach accessories that work on engine-driven equipment can also be used on select ArcReach-equipped XMT® and Dimension™ power sources.
- Reverse compatible. ArcReach-equipped power sources work with non-ArcReach accessories; however, the complete ArcReach benefit is only realized with the ArcReach system.

*Single-phase listings include 4,000 watts from the exciter stator.*
1. Self-calibrating digital weld meters with fault code indication display preset or actual weld parameters.

2. Weatherproof Lexan® nameplate is super durable and resists cracking and fading.

3. Operator controls. Independent controls for multi-arc welding. “A” controls are for single operator and “B” controls are for a second operator.

4. Weld process selection switch

5. Pushbutton main control knob used for adjusting amperage/voltage, adjusting arc control, and accessing the service menu.

6. Adjustable arc control adjusts DIG when process control is in stick modes and adjusts inductance when process control is in FCAW or MIG modes. The amount of DIG determines how much amperage (heat) varies with stick arc length. Inductance determines the “wetness” of the weld puddle.

7. Electronic engine display can display fuel level, engine hours, coolant temperature, oil pressure, battery volts, engine rpm, air pressure, and compressor hours simultaneously or one at a time. Also tracks oil change intervals and displays engine diagnostics for service technicians.

8. USB port allows software updates from a USB drive. A summary file of recoded data from the unit will be saved to a USB drive that is inserted.

9. Air compressor on/off switch (Air Pak™ models only)

10. Engine control switch is used to start engine and then select between auto idle and high speed lock. Glow plug operation is controlled by the engine control module and automatically occurs as needed by ambient conditions.

12. Separate/parallel switch. Use switch to select single operator mode (A) or dual operator mode (A/B).

13. Weld output terminals

Receptacles and circuit breakers – USA models

14. 50 A, 240 V, three-phase receptacle
   (For matching plug, order 254140.)

15. 50 A, 120/240 V receptacle (For matching plug, order 119172.)

16. 20 A, 240 V receptacles

17. 20 A, 120 V receptacles with ground fault

18. 50 A circuit breaker

19. 20 A, 240 V circuit breaker

20. 20 A, 120 V circuit breakers

Receptacles and circuit breakers – International models

21. 20 A, 120 V receptacles with ground fault

22. 240 V earth leakage circuit breaker

23. 32 A, 400 V three-phase receptacle
   (For matching plug, order 255421.)

24. 30 A, three-phase circuit breaker

25. 120 and 240 V circuit breakers

26. 16 A, 120/240 V receptacles
   (For matching plugs, order 255419 for 120 V and 255416 for 240 V.)
Desiccant Air Dryer System
195117 Side mount
195117001 Rear mount
For Air Pak® models only. A regenerating inline air dryer system that eliminates moisture in the air stream to prevent air tool freeze-ups in cold climates. Internal thermostat and heating elements ensure good air quality in all climates. The system can be mounted on the side or on the rear of the machine to meet your installation requirements.

Full KVA Adapter Cord 300517 Field NEMA 14-50P to NEMA 6-50R. Adapts engine drive 120/240 V plug to common Millermatic® and Spectrum® 240 V plug.

Full KVA Plug Kit Field
119172 1-phase, 120/240 V, 50 A plug (NEMA 14-50P)
254140 3-phase, 240 V, 50 A plug (NEMA 15-50P)

International Plugs Field
255416 1-phase, 240 V, 16 A plug
255421 3-phase, 400 V, 32 A plug

Engine Filter Kits
262459 Field. For USA models
246988 Field. For International models
Includes all filters required for proper engine maintenance. Oil filter, primary and secondary fuel filter, and primary air filter.

Compressor Kit 279121 Field
For Air Pak models only. Includes oil and all filters required for proper compressor maintenance. Oil filter, air filter and coalescing filter.

Spark Arrestor Kit 195012 Field
Prevents particles from leaving the muffler that could potentially start a fire. Mandatory when operating on California grasslands, brush, or forest-covered land, and in all national forests. For other areas, check your state and local laws. Meets U.S. Forest Service standard 5100-1B.

FA-10 Lockable Flame Arrester
Fuel Cap 043947 Field Fuel cap can be padlocked to prevent vandalism. A built-in flame arrester prevents flames or sparks from entering the fuel tank.

Cable Holder 043946 Field Saddle-bag-style cable holder. Convenient wrap-around storage of coiled cable for transportation. Stores 100 feet of 2/0 cable on each side.

Not: For best results do not weld when cable is coiled! Protective cover cannot be used with cable holder.

Big Blue 500 – 800 Pro Cold Weather Kit 301482 Adjustable, steel-hinged cover for operating in extremely cold conditions.

Protective Cover 301113 Field Blue water-resistant canvas cover resists stains and mildew, and protects the finish of your welder.

Note: Protective cover cannot be used with cable holder.

MIG (GMAW) or Flux-cored (FCAW)

ArcReach® Smart Feeder 951733 For use with ArcReach models only (see page 2 for more information). Includes drive rolls and Bernard® PipeWorx 300-15 MIG gun. For MIG, FCAW, and advanced RMD® and pulse processes. See literature M/6.55

SuitCase® 12RC Wire Feeder 951580 Lightweight and flexible enough to run a variety of wires up to .062-inch diameter. Includes remote voltage control, drive roll kit and MIG gun. See literature M/6.5.

MIG (GMAW)/Flux-cored (FCAW) Guns
See Bernard literature SP-BTB for BTB air-cooled MIG guns, and SP-DF for Dura-Flux™ self-shielded flux-cored guns.

Spoolmatic® 30A Spool Gun 130831 Air-cooled, 200-amp, spool gun for aluminum and stainless MIG. See literature M/1.73. Requires WC-24 Control (137549).

XR® Wire Feeders and Guns
Push-pull system designed to handle difficult-to-feed soft alloy wires such as aluminum. See literature M/1.7 through M/1.74.

AC TIG (GTAW) Welding

Dynasty. 210 Series
For portable AC/DC TIG. See literature AD/4.81.
Genuine Miller® Accessories (Continued)

Plasma Cutting

Spectrum 375 X-TREME and 625 X-TREME shown.
Spectrum® 375 X-TREME™ 907529
See literature PC/9.2.
Spectrum® 625 X-TREME™ 907579
See literature PC/9.6.
Spectrum® 875 907583
See literature PC/9.8.
The Spectrum 375 X-TREME and 625 X-TREME come complete with protective X-CASE™ (not shown).

Stick/TIG Remote Controls

ArcReach® Stick/TIG Remote 301325
When paired with an ArcReach power source, provides remote control of the power source without a cord — saving time and money. See literature AY/14.5.

Wireless Remote Hand Control 300430
For remote current, voltage and contactor control. Receiver plugs directly into the 14-pin receptacle of Miller machine. 300-foot (91.4 m) operating range. Wireless antenna kit 300749 recommended.

Wireless Antenna Kit 300749
Optional when improved reception is desired.

Stick/TIG Remote Controls

RHC-14 Hand Control 242211020
Miniature hand control for remote current, voltage and contactor control. Dimensions: 4 x 4 x 3.25 inches (102 x 102 x 82 mm). Includes 20-foot (6 m) cord and 14-pin plug.

Extension Cables for 14-Pin Remote Controls or 24 VAC Wire Feeders
242208025 25 ft. (7.6 m)
242208050 50 ft. (15.2 m)
242208080 80 ft. (24.4 m)

Wireless Antenna Kit 300749
Optional when improved reception is desired.

Mounting Specifications

4 West Four-Wheel Steerable Off-Road Trailer 042801
A heavy-duty 2,550-pound (1,157 kg) capacity trailer designed for use in mines, quarries, and other rough terrain. Has narrow 22-foot (6.7 m) turning radius. Includes 3-inch (76 mm) lunette eye, universal hitch and safety chains.

HWY-225 Trailer 301338
A 2,700-pound (1,225 kg) capacity highway trailer with welded steel tubing frame, heavy-duty axle with roller bearing hubs and leaf-spring suspension. Includes jack stand, fenders, lights, and dual hitch with 2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye.

Cable Tree 043826
For use with HWY-225. Provides an area to conveniently wrap weld cables and extension cords.

Dual Hitch 301441
For use with HWY-225. 2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye in one reversible assembly.

2-In-1 Document/ Fire Extinguisher Holder 301236
For use with HWY-225. Stores documents and holds a 5-pound fire extinguisher. Note: Holder shown mounted on trailer. Fire extinguisher not included.

2-In-1 Document/ Fire Extinguisher Holder 301236
For use with HWY-225. Stores documents and holds a 5-pound fire extinguisher. Note: Holder shown mounted on trailer. Fire extinguisher not included.
