Industrial Applications
- Fabrication
- Maintenance
- Repair
- Structural steel work
- Sheet metal
- Pipe

Rated: 3/16-inch carbons,
Capable: 1/4-inch carbons

Rated: 12/24 V, 75 A
Crank assist 12/24 V, 350 A

Trailblazer welder/generators deliver unbeatable arc performance providing the smoothest, most stable arc in the industry.

The Trailblazer exclusive technologies — Auto-Speed™ and optional Excel™ power — deliver superior runtimes, increase fuel efficiency, and improve welder/generator performance.

No other compact machine in the 300-amp class delivers more welding power or more auxiliary power with better fuel efficiency and less noise — for productive, profitable, quieter jobsites.

Trailblazer 325 EFI with ArcReach and optional wireless interface control and Excel power shown.

Welder/generator is warrantied for three years, parts and labor.
Engine is warrantied separately by the engine manufacturer.

Optimized arc control for stick welding applications. See page 2.

MillerWelds.com
**Dynamic DIG™ technology**

Ultra-adaptive arc control. Unlike conventional DIG that provides a preset amount of short-clearing current, Miller-exclusive Dynamic DIG technology works on a time-based algorithm that automatically adjusts the amount of current required to clear a short. Delivers a smoother more consistent arc that can be tailored to match application, material, fit-up and welder technique.

**Auto-Speed™ technology**

Matches engine speed to load — a Miller exclusive. Get the welding power you need — plus reduced fuel consumption and lower noise levels for a more profitable jobsite.

Auto-Speed technology responds to weld requirements by automatically adjusting engine speed to one of four rpm levels so the engine never works harder than necessary. Refueling time and operating costs are reduced, which means more productivity and profitability. Plus everyone on the jobsite gets a better working environment because noise levels and exhaust emissions are lowered.

**ArcReach® technology**

Parameter control at the wire feeder or pendant without needing a control cord. An ArcReach system allows you to change weld settings from your ArcReach feeder or Stick/TIG remote, saving a trip to the power supply. ArcReach technology uses the existing weld cable to communicate welding control information between the feeder or Stick/TIG remote and the power source. This technology eliminates the need for control cords, and their associated problems and costs.

*Note: ArcReach is optional on LP models. It is not available on the Battery Charge/Jump Start model.*

**Wireless interface control (option)**

Get full control of your machine in the palm of your hand so you can work hassle free. With wireless interface control, you can change welding processes, adjust parameters, select and save preset programs, turn the machine on/off, get service reminders and more from wherever you are on the jobsite. Extend time between fill ups and maintenance intervals while eliminating the need to go back to your machine to make adjustments.

Wireless interface control is a factory-installed option available on select carbureted and EFI models.

**Excel™ power (option)**

Power at idle — a Miller exclusive. Unlike competitive machines that provide auxiliary power only at 3,600 rpm (max), Excel power delivers a full 2,400 watts (20 A) of 120-volt inverter-based, pure sine-wave power at idle. With Excel power you can operate jobsite tools like grinders at quiet, fuel-saving speeds.

Refueling time and operating costs are reduced with Excel power, which means more productivity and profitability. Plus everyone on the jobsite gets a better working environment because noise levels and exhaust emissions are lowered. Excel power — available only from Miller.
Quieter jobsites

Quieter jobsites are more productive because work crews can communicate easier, and work can start earlier and end later — even in noise-sensitive areas. If your jobsite needs a welder/generator, it needs a Trailblazer welder/generator — because no other gas-fueled choice is as quiet.

Optional wireless interface control makes it easy to shut off the machine remotely when it’s not in use, so you can lower noise levels and hear what’s going on around you.

Electronic fuel injection (EFI) (option)

Improve fuel efficiency for maximum productivity and profitability. Adding EFI to your Trailblazer welder/generator adds multiple benefits. With EFI, you’ll get faster, more-reliable starts in any weather — no choke adjustments needed. EFI-equipped Trailblazer machines are also up to 42 percent more fuel efficient than standard carbureted models, improving profitability. Plus, refueling less frequently means you’ll spend more of your time welding, improving productivity. Add Excel power to your Trailblazer with EFI for maximum fuel efficiency.

Increased performance at high altitude. Electric fuel pumps are now standard on all EFI models, leading to better performance when operating at altitudes of 5,000 feet or greater.

Battery charge/crank assist (EFI gas-only option)

Reduce downtime with battery charge/crank assist capability. Designed and recommended for mechanics or anyone else responsible for a fleet of trucks or equipment. By using your Trailblazer to charge dead batteries or jump a stubborn engine, you’ll keep your crew working and the fleet up and running.

Note: Battery charge/jump cables (300422) must be ordered separately.

Maximum cost savings

Less money spent on fuel means more profit for you. Every Trailblazer welder/generator has fuel-saving Auto-Speed technology; add optional Excel power and EFI to save even more on fuel costs and enjoy a combination of advanced, profit-enhancing features that are only available on a Trailblazer welder/generator.

Maximize your savings with optional wireless interface control which allows you to turn your machine off remotely, saving you more money on fuel.

**ADD EFI & EXCEL POWER**

**ANNUAL FUEL SAVINGS OVER LEADING COMPETITIVE MACHINE**

**$744**

**DELIVERS PAYBACK IN 1.6 YEARS**

Battery charge/crank assist (EFI gas-only option)

No other gas welder/generator in the 300-amp class lets your crews spend more time working and less time refueling — because only Trailblazer welder/generators provide Auto-Speed™ technology, plus Excel™ power and electronic fuel injection (EFI) options, to deliver maximum runtime.

With optional wireless interface control, you can instantly turn your machine off when needed to save you even more fuel.

Increased performance at high altitude. Electric fuel pumps are now standard on all EFI models, leading to better performance when operating at altitudes of 5,000 feet or greater.

Maximum cost savings

Less money spent on fuel means more profit for you. Every Trailblazer welder/generator has fuel-saving Auto-Speed technology; add optional Excel power and EFI to save even more on fuel costs and enjoy a combination of advanced, profit-enhancing features that are only available on a Trailblazer welder/generator.

Maximize your savings with optional wireless interface control which allows you to turn your machine off remotely, saving you more money on fuel.

Auxiliary Power Fuel Consumption

Mounting Specifications

For truck installation information, visit MillerWelds.com/truck

A. 20 in. (508 mm)
B. 16.5 in. (419 mm)
C. 1.75 in. (44.5 mm)
D. 5.12 in. (130 mm)
E. 22.3 in. (566 mm)
F. 40.32 in. (1,024 mm)
G. .406 in. (10.3 mm) diameter
1. Self-calibrating digital meters with SunVision™
   - Preset and actual amperage/voltage
   - Process settings
   - Maintenance functions: hour meter, oil change interval, rpm

2. Weld process selection switch

3. Pushbutton main control knob used for adjusting amperage/voltage, adjusting arc control, and accessing the service menu.

4. Adjustable arc control adjusts DIG when process control is in stick modes and adjusts inductance when process control is in FCAW or MIG modes. The amount of DIG determines how much amperage (heat) varies with stick arc length. Inductance determines the “wetness” of the weld puddle.

5. Maintenance interval reminder. Yellow and red indicator lights let an operator know when the machine is approaching, and finally in need of routine maintenance.

6. Front panel fuel gauge LEDs (gas models only) indicate fuel level.

7. Standard 14-pin receptacle for simple connection of remote controls and wire feeders. Includes Auto Remote Sense™ which automatically switches from panel to remote amperage/voltage (A/V) control with remote connected. Eliminates confusion of a panel/remote switch.

8. USB port allows software updates from a USB drive. A summary file of recorded data from the unit will be saved to a USB drive that is inserted.

9. Engine control. Run/idle position adjusts engine to run at lower speeds depending on total power needed for welding.

10. Engine choke control (LP models only) is used for easy engine starting.

11. Optional battery charge/crank assist (factory option, see page 8)
   A. Receptacle: Provides connection to battery charge/crank assist (12 or 24 volt)
   B. On/off switch: Provides simple control of the battery
   C. Voltage switch: Provides simple selection of battery voltage

12. Weld output terminals

13. Optional Excel™ power (factory option, see page 8) provides pure generator power at idle speed and while welding.

Note: If Trailblazer is ordered without Excel power option, unit is shipped with two 20 A, 120 V duplex receptacles with circuit breakers and ground fault.

14. 50 A, 120/240 V receptacle with circuit breaker

Note: For matching plug, order 119172.
**Genuine Miller® Options** *Available as factory option. See ordering information on back page.*

LP Gas*  
Liquid LP with regulator. Does not include tanks, brackets or hose from tank to regulator.  
*Note: Requires Hose and LP Tank Mounting Assembly 300917.

GFCI Receptacles*  300975 Field  
Kit contains two GFCI 120 V duplex receptacles.

Electric Fuel Pump*  300976 Field  
Recommended for gas engine operations at altitudes above 5,000 feet. Improves engine starting and high-output performance.

Spark Arrestor  300924 Field  
Mandatory when operating on California grasslands, brush or forest-covered land, and all national forests. For other areas, check your state and local laws.

Remote Oil Drain and Filter Kit  300923 Field  
Front mount for Kohler. Makes servicing easy when engine drive is mounted in tight spots.

Full KVA Adapter Cord  300517 Field  
NEMA 14-50P to NEMA 6-50R. Adapts engine drive 120/240 V plug to common Millermatic® and Spectrum® 240 V plug.

Genuine Miller® Accessories

**Never Flat™ Tires**  
Available on Bobcat and Trailblazer running gear.  
- Reduce costly jobsite downtime  
- Maintain constant tire pressure and will not develop flats  
- Protect against punctures  
- Preserve maneuverability, even when weighed down with heavy welding cable

Off-Road Running Gear  300909 Gas/LP, with inner tubes  300910 Gas/LP, with Never Flat tires  
Includes four heavy-duty 15-inch tires and a rugged handle to provide maximum maneuverability.

Off-Road Running Gear with Protective Cage and Never Flat Tires  300912 Gas/LP  
Running gear and rugged cage with cable holders protects your investment and is easy to move around the jobsite.

Multi-Terrain Running Gear  300913 Gas/LP, with inner tubes  300914 Gas/LP, with Never Flat tires  
Includes two heavy-duty 15-inch tires, two 8-inch rubber swivel casters and a heavy-duty handle. Recommended for all surfaces and applications, and is easy to move around the jobsite.

Protective Cage with Cable Holders  300921 Gas/LP  
Rugged cage with cable holders protects your investment. Can be used with running gear, gas cylinder mounting assembly, LP tank mounting assembly, or with trailer.

Gas Cylinder Mounting Assembly  300918 Gas  
Designed for use with multi-terrain running gear, protective cage, or by itself. Includes bracket and clamp to mount 33- and 43-pound tanks horizontally, and hose with fittings to converter. For use with Trailblazer 325 LP only.  
*Note: Not for use with gas cylinder mounting assembly. Not recommended for use with protective cover.*

Hose and LP Tank Mounting Assembly  300917 LP  
Designed for use with multi-terrain running gear, protective cage, or by itself. Includes bracket and clamp to mount 33- and 43-pound tanks horizontally, and hose with fittings to converter. For use with Trailblazer 325 LP only.

25-foot Battery Charge/Jump Cables with Plug  300422

300919 For gas models without protective cage or running gear (shown)  300920 For gas models with protective cage and/or running gear

Wireless Interface Control Protective Covers  287594  
Five-pack of screen protectors for wireless interface control remote.

Heavy-duty, water-resistant and mildew-resistant covers protect and maintain the finish of the welder.
Genuine Miller® Accessories (Continued)

MIG/Flux-cored Welding

ArcReach® SuitCase® 8
951726 With Bernard® BTB Gun 300 A
951727 With Bernard® S-Gun™
951728 With Bernard® Dura-Flux® gun

ArcReach® SuitCase® 12
951729 With Bernard® BTB Gun 300 A
951730 With Bernard® S-Gun™
951731 With Bernard® Dura-Flux® gun

Portable feeder designed to run off of arc voltage. When paired with an ArcReach power source, provides remote control of the power source without a control cord — saving time and money. See literature M/6.55.

ArcReach® Smart Feeder 951733
For use with ArcReach models only (see page 2 for more information). Includes drive rolls and Bernard® PipeWorx 300-15 MIG gun. For MIG, FCAW, and advanced RMD® and pulse processes. See literature M/6.55.

SuitCase® 12RC Wire Feeder 951580
Lightweight and flexible enough to run wires up to .062-inch diameter. Includes remote voltage control, drive roll kit and Bernard® BTB Gun 300 A. See literature M/6.5.

Spoolmatic® 30A Spool Gun 130831
Air-cooled, 200-amp, one-pound spool gun for aluminum MIG. See literature M/1.73. Requires WC-24 Control (137549).

XR™ Wire Feeders and Guns
Push-pull system designed to handle difficult-to-feed soft alloy wires such as aluminum. See literature M/1.7 through M/1.74.

Stick (SMAW) Welding

Weld Leads
2/0 Stick Cable Set, 50 ft. (15 m) 173851
Consists of 50-foot (15 m) 2/0 electrode cable with holder, and 50-foot (15 m) work cable with clamp. 350 A, 100% duty cycle.

2/0 Stick Cable Set, 100/50 ft. (30.5/15 m) 043952
Consists of 100-foot (30.5 m) 2/0 electrode cable with holder, and 50-foot (15 m) work cable with clamp. 300 A, 100% duty cycle.

AC TIG (GTAW) Welding

Dynasty® 210 Series
For portable AC/DC TIG. See literature AD/4.81.

Plasma Cutting

Spectrum 375 X-TREME and 625 X-TREME shown.
Spectrum® 375 X-TREME™ 907529
See literature PC/9.2.
Spectrum® 625 X-TREME™ 907579
See literature PC/9.6.
Spectrum® 875 907583
See literature PC/9.8.
The Spectrum 375 X-TREME and 625 X-TREME come complete with protective X-CASE™ (not shown).

Remote Solutions

ArcReach® Stick/TIG Remote 301325
When paired with an ArcReach power source, provides remote control of the power source without a control cord — saving time and money. See literature AY/14.5.

Wireless Remote Hand Control 300430
For remote current, voltage and contactor control. Receiver plugs directly into the 14-pin receptacle of Miller® machine. Up to 300-foot (91.4 m) operating range.

RHC-14 Hand Control 242211020
Miniature hand control for remote current and contactor control. Dimensions: 4 x 4 x 3.25 inches (102 x 102 x 82 mm). Includes 20-foot (6 m) cord and 14-pin plug.

PRHC-14 Hand Control 195511
Complete current or voltage control brings 120 volts GFCI power to work area in a single cord. Housed in a durable, light aluminum case and includes 125-foot (38 m) cord with plugs.

Extension Cables for 14-Pin Remote Controls
242208025 25 ft. (7.6 m)
242208050 50 ft. (15.2 m)
242208080 80 ft. (24.4 m)

Remote Output Panel Kit 951850
If your welder/generator is mounted on a truck, easily locate the outputs at the point of use with the auxiliary power and weld output remote panel. See literature AY/20.5.

Trailers and Hitches

HWY-Mid Frame Trailer 301438
1,424-pound (646 kg) capacity highway trailer with welded steel tubing frame, heavy-duty axle with roller bearing hubs and leaf-spring suspension. Includes jack stand, fenders, lights, and dual hitch with 2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye.

Note: Trailer is shipped unassembled.

Cable Tree 043826
Provides an area to conveniently wrap weld cables and extension cords.

2-In-1 Document/ Fire Extinguisher Holder 301236
Stores documents and holds a five-pound fire extinguisher.

Note: Holder shown mounted on trailer. Fire extinguisher not included.
