**Processes (X-Ray Quality)**
- Stick (SMAW)
- MIG (GMAW)
- Flux-cored (FCAW)
- AC/DC TIG (GTAW)
- Battery charge/crank assist
- Air carbon arc (CAC-A) cutting and gouging
  - Rated: 3/16-inch carbons,
  - Capable: 1/4-inch carbons
- Air plasma cutting and gouging with optional Spectrum® models
  - Rated: 5/8-inch mild steel

**Output Range**
- DC stick: 25–300 A
- MIG/flux-cored: 13–35 V, 350 A
- DC TIG: 10–300 A
- AC TIG/stick: 10–225 A

**Generator Power Output**
- Rated at 104°F (40°C)
  - 13,000 watts peak, 11,000 watts continuous

**Air Compressor**
- 31 cfm, 100% duty cycle, 80–160 psi

**Battery Charge/Crank Assist**
- Battery charge: 12/24 V, 10–75 A
- Battery crank assist: 12/24 V, 450 A / 350 A

---

**Industrial Applications**
- Fabrication
- Maintenance
- Repair
- Structural steel work
- Sheet metal

**Quick Specs**

**Easy Service.**
- Toolless top access to:
  - Engine air cleaner
  - Engine oil check/fill dipstick
  - Battery
  - Compressor oil check/fill dipstick
  - Compressor oil separator
  - Air compressor air filter

**Toolless side access to:**
- Engine oil filter
- Engine oil drain
- Engine fuel filter

**Rear access to:**
- Compressor oil filter
- Compressor oil drain

**Front panel air pressure adjustment.**
- Simple to adjust the correct air pressure for specific applications (80–160 psi)
- Lower pressure will increase engine power for more gouging and plasma cutting output capabilities

---

**The all-in-one tool that delivers multiprocess output for welding, plasma cutting, gouging, air tools, and 12/24-volt battery charge/crank assist.**

---

**Easy Operation.**
- Reduce fuel consumption and noise by using the front panel air flow control which matches engine speeds to air flow requirements for tools, plasma cutting and gouging.

---

**Welding and Cutting Power.**
- Rated: 3/16-inch carbons,
- Capable: 1/4-inch carbons
- Air plasma cutting and gouging with optional Spectrum® models
  - Rated: 5/8-inch mild steel

---

**TRUE BLUE® 5YR WARRANTY**
Welder/generator/air compressor/battery charger is warranted for three years, parts and labor. Engine is warranted separately by the engine manufacturer.

**MillerWelds.com**
**Trailblazer® 302 Air Pak™ Features**

### Size and weight
Takes only half the bed space of a separate engine-driven air compressor and welder, freeing up to 50 percent more room on your truck for equipment and supplies. Plus decreases axle weight up to 25 percent.

### Independent weld and generator advantages
- 13,000 watts of voltage-regulated power
- No interaction between grinders, power tools, etc. and the welding arc
- Generator power is independent of weld
- Four-pole weld generator produces the best arc quality

### Battery charge/crank assist
- Provides selectable 12- or 24-volt battery charging capability
- Provides up to 450 amps of battery crank assist capability
- Convenient front panel battery charge/crank assist access
- 25-foot battery charge/jump cable (300422) available

### Industrial rotary-screw air compressor
- Runs most air impact wrenches at idle
- Produces 31 cfm of air at 100 percent duty cycle
- Delivers 80–160 psi of air with no storage tank
- Gives 100 percent deliverable air
- Compressor is warranted by Miller for three years
Answers to Frequently Asked Trailblazer® 302 Air Pak® Questions

Air facts
- Moisture going into a compressor also comes out
- Air compressors heat air, turning moisture droplets into vapor

How can I reduce moisture in the air?

Air Cooler with Separator  300420
- Most popular
- The cooler cools air which turns vapor moisture into droplets and the separator removes the droplets
- Removes 70 percent of the moisture from the air
- Use for most applications including tools, blasters, plasma cutters and gouging
- Effective when temperatures are above freezing (this is also when the most moisture is in the air). Below 32 degrees Fahrenheit (0°C) the separator can freeze. If this happens, bypass the cooler/separator system and continue air operations without drying it
- Fully integrated inside of the Air Pak

RTI Filter  300491
- Recommended for plasma cutting. Separators remove droplets of water, not vapor, but this is good enough for most plasma cutting applications
- Because compressors heat air, this filter option is less effective at removing moisture (heat turns droplets into vapor and vapor is not filtered)

Desiccant Air Dryer  300690
- Cools air and removes 99 percent of the moisture from the air
- Primary use is when temperature ranges below freezing and moisture still must be removed from the air
- Has a built-in heater
- Mounted externally from the machine with some wiring that needs to take place inside of the machine

Note: Reduces air flow up to four cfm at all speeds.

What does average vs continuous cfm mean?
- Average cfm is typically based on 15-second usage intervals
- Air tools are often rated as “average cfm”. Impact wrenches, button punch/Deck tools, and decking crimp tools are typically used intermittently (short time durations).
- Continuous cfm is based on continuous usage
Air grinders and sand blasters are examples of air tools that are used continuously.

The Air Pak will easily run the following:

Air Tools | Average cfm* | Continuous cfm*
---|---|---
3/4-inch Impact Wrench (IR 2141) | 10 | 40
3/4-inch Impact Wrench (Speedaire) | 7 | 26
1/2-inch Impact Wrench (IR 231C) | 4 | 22
Needle Scaler (IR 182LNA1) | 3 | 13
4-1/2-inch Grinder (Dayton) | 7 | 26
1/4-inch Die Grinder (IR G1H350RG4) | 6 | 25
1/2-inch Drill (IR 7AQS3E) | 4 | 17
Air Shears (IR 7802SA) | 4 | 21
Sand Blaster | — | 6
Soda Blaster | — | 18
Button Punch/Deck Tool | — | 4
Decking Crimp Tool | 4 | 15

*1/2-inch air hose is recommended for better tool efficiency. Note: Impact wrenches use continuous cfm when “free” spinning. In actual use, cfm requirements are less. Thus, the Trailblazer Air Pak is rated to run a 40 cfm impact wrench.

How do I access the air?

The Trailblazer Air Pak provides four convenient air compressor access points. The air outlet connection requires a 1/2-inch NPT swivel fitting.
Specifications (Subject to change without notice.)

Welding Mode | Process | Amp/Volt Ranges | Rated Weld Output at 104°F (40°C)* | Single-Phase Generator Power | Sound Levels at Rated Output 7 m (23 ft.) | Dimensions | Net Weight**
--- | --- | --- | --- | --- | --- | --- | ---
CC/DC | Stick/TIG | 10–300 A | 280 A at 32 V, 100% duty cycle | Peak | 2400 rpm (idle): 73.4 dB (98.4 Lwa) | H: 28 in. (838 mm) | 771 lb. (350 kg)
CV/DC | MIG/FCAW | 13–35 V | 300 A at 32 V, 100% duty cycle | Continuous | 3000 rpm: 76.5 dB (101.5 Lwa) | H: 34.5 in. (876 mm) (to top of exhaust) | 71 lb. (32 kg)
CC/AC | Stick/TIG | 10–225 A | 350 A at 32 V, 60% duty cycle | 3600 rpm: 81.2 dB (106.6 Lwa) | W: 20 in. (508 mm) | 35 lb. (16 kg)
Battery charge/ crank assist | | | | | D: 59.625 in. (1,514 mm) | D: 59.625 in. (1,514 mm) | 35 lb. (16 kg)

*Rated at sea level. **Net weight without fuel.

Performance Data

Fuel Consumption Data

- 12-gallon fuel capacity
- On a typical job using 1/8-inch 7018 electrodes (125 A, 20% duty cycle) expect over 16 hours of operation
- Welding at 150 A, 40% duty cycle uses approximately: 3/4-gallon per hour — over 13 hours of operation
- Many air tools can be used when running at idle. Running at idle with a compressor load will provide 14 hours of run time
- Running the air compressor at 31 cfm will provide 11 hours of run time
- Reduce fuel consumption by turning the air compressor off when the Air Pak is not in use. For weld/generator fuel consumption chart see chart at left

Mounting Specifications

- Engine End
- G: 4 Holes
- A: 20 in. (508 mm)
- B: 16.5 in. (419 mm)
- C: 1.75 in. (44 mm)
- D: 6.062 in. (154 mm)
- E: 32.75 in. (832 mm)
- F: 6.025 in. (154 mm)
- G: .406 in. (10 mm) diameter
- Height: 28 in. (838 mm) 34.5 in. (876 mm) (to top of exhaust)
- Width: 20 in. (508 mm)
- Depth: 59.625 in. (1,514 mm)
- Lifting eye rating: 1,000 lb. (453 kg)
1. Self-calibrating digital weld meters with meter maintenance displays capable of displaying engine and air compressor oil change intervals.

2. Four preset DIG settings* offer the best arc characteristics for different electrodes and joint designs. The amount of DIG determines how much amperage (heat) varies with stick arc length. The combined process switch along with preset DIG settings make the Trailblazer easy to set without the complication of multiple switches.

3. Adaptive Hot Start™ (stick) automatically sets starting amperage for great arc starts.

4. Great MIG/FCAW performance and arc starts make the Trailblazer arc the best in its class. Easy to run all wires from .023-inch solid wires to large diameter 5/64-inch flux-cored wires.

5. Lift-Arc™ TIG with Auto-Crater™* and Auto-Stop™

6. Air compressor, battery charge/crank assist, and maintenance selector

7. Air pressure gauge/regulator gives the approximate air pressure settings needed for common air tools/plasma/carbon arc gouging. The pressure gauge also reads the actual air pressure being used. The regulator allows user control of the pressure settings up to 160 psi.

8. Front panel fuel gauge* LEDs indicate fuel level. The “E” LED lights up when fuel is low.

9. AC/DC and battery charge/crank assist switch allows selection between AC or DC weld output and battery charge/crank assist function.

10. Battery charge/crank assist receptacle for connection to battery charge/jump cable (12 or 24 volt).

11. Standard 14-pin receptacle for simple connection of remote controls and wire feeders. Includes Auto Remote Sense™ which automatically switches from panel to remote amperage/voltage (A/V) control with remote connected. Eliminates confusion of the panel/remote A/V switch.

12. Speed control switch allows control of engine speed based on the switch position. In the auto speed mode, the speed will be auto selected depending on total power needed. The speed will auto select between 3000 and 3600 rpm depending on weld demand or weld plus air demand. Anytime auxiliary load is needed the engine will go to 3600 rpm.

13. Engine choke control

14. 120 V and 240 V receptacles with circuit breakers
   (For matching plug, order 119172.)

*Category Exclusive
Genuine Miller® Options *Available as factory option. See ordering information on back page.

**GFICI Receptacles** 300975 Field Kit contains two GFIC 120 V duplex receptacles. (240 V GFIC receptacle not required).

**Electric Fuel Pump** 195214 Field Recommended for gas engine operations at altitudes above 5,000 feet. Improves engine starting and high-output performance.

**Cold Weather Kit** 301115 Field Includes block heater for improved starting, and a fuel heater for optimal filtration in cold temperatures.

**Full KVA Adapter Cord** 300517 Field NEMA 14-50P to NEMA 6-50R. Adapts engine drive 120/240 V plug to common Millermatic® and Spectrum® 240 V plug.

**Full KVA Plug Kit** 119172 Field 120/240 V, 50 A plug (NEMA 14-50P) to fit full KVA receptacle.

**Air Cooler with Separator** 300420 Cools and removes moisture from the air supply. Designed for use above 32 degrees Fahrenheit (0°C). Bypass in colder temperatures. See air dryer choices on page 3 for details.

**Micron Filter Element** 203877 Replacement micron filter for the Air Cooler with Separator.

**RTI Filter and Bracket** 300491 Dryer will remove water, dirt and oil as small as one micron with 99.9 percent efficiency. Can be mounted on plasma cutter or on wall. Install as close as possible to point of air consumption. Designed for use above 32 degrees Fahrenheit (0°C). Bypass in colder temperatures. See air dryer choices on page 3 for details.

**Desiccant Air Dryer System** 300690 A regenerating inline air dryer system that eliminates moisture in the air stream to prevent air tool freeze-ups in cold climates. See air dryer choices on page 3 for details.

**Engine Tune-Up Kit** 238743 Field For Kohler CH750. Includes spark plugs and engine filters.

**Air Compressor Tune-Up Kit** 279120 Field Includes oil filter, air filter and oil separator.

**Genuine Miller® Accessories**

**Protective Cage with Cable Holders** 300473 Rugged cage with cable holders protects your investment. Can be used with trailer.

**25-foot Battery Charge/Jump Cable** 300422

**Protective Cover** 300379 Heavy-duty, water-resistant and mildew-resistant covers protect and maintain the finish of the welder. For models without protective cage.

**MIG/Flux-cored Welding**

**Millermatic® 141** 907612 See literature DC/12.42

**Millermatic® 211** 907614 See literature DC/12.58

The Millermatic line of MIG welders are complete arc welding power source, wire feeder and gun packages designed for portability and ease of use. Note: The Millermatic machines can be operated utilizing auxiliary power.

**SuitCase® X-TREME™ 8VS Wire Feeder** 951582

**SuitCase® X-TREME™ 12VS Wire Feeder** 951543 Lightweight, voltage-sensing wire feeders include secondary contactor, gas valve, drive roll kit and Bernard™ BTB Gun 300 A. See literature M/6.42.

**SuitCase® 12RC Wire Feeder** 951580 Lightweight and flexible enough to run wires up to .062-inch diameter. Includes remote voltage control, drive roll kit and Bernard™ BTB Gun 300 A. See literature M/6.5.

**Spoolmatic® 30A Spool Gun** 130831 Air-cooled, 200-amp, one-pound spool gun for aluminum MIG. See literature M/1.73. Requires WC-24 Control (137549).

**XR™ Wire Feeders and Guns** Push-pull system designed to handle difficult-to-feed soft alloy wires such as aluminum. See literature M/1.7 through M/1.74.
**Genuine Miller® Accessories (Continued)**

### Stick (SMAW) Welding

**Weld Leads**
- **2/0 Stick Cable Set, 50 ft. (15 m)** 173851
  Consists of 50-foot (15 m) 2/0 electrode cable with holder, and 50-foot (15 m) work cable with clamp. 350 A, 100% duty cycle.
- **2/0 Stick Cable Set, 100/50 ft. (30.5/15 m)** 043952
  Consists of 100-foot (30.5 m) 2/0 electrode cable with holder, and 50-foot (15 m) work cable with clamp. 300 A, 100% duty cycle.

### Plasma Cutting

- **Spectrum 375 X-TREME and 625 X-TREME shown:**
  - **Spectrum® 375 X-TREME** 907529
    See literature PC/9.2.
  - **Spectrum® 625 X-TREME** 907579
    See literature PC/9.6.
  - **Spectrum® 875** 907583
    See literature PC/9.8.

### Remote Controls

- **Wireless Remote Hand Control** 300430
  For remote current, voltage and contactor control. Receiver plugs directly into the 14-pin receptacle of Miller machine. 300-foot (91.4 m) operating range.

### Trailers and Hitches (Note: Trailers are shipped unassembled.)

- **Cable Tree** 043826
  Provides an area to conveniently wrap weld cables and extension cords.

- **Dual Hitch** 301441
  2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye in one reversible assembly.

- **2-In-1 Document/Fire Extinguisher Holder** 301236
  Stores documents and holds a five-pound fire extinguisher. Note: Holder shown mounted on trailer. Fire extinguisher not included.
