The professional welder’s choice — designed with the professional in mind, the Big Blue 700 Series is the best for arc performance, ease of use and reliability.

Big Blue® 700 and 700X Duo Pro
Multioperator work platform delivers two premium arcs (up to 400 amps each) allowing welding operators to work independently with no arc interaction.

NEW! Big Blue® 700X Duo Pro SF
Improve productivity and quality with advanced RMD* and pulsed MIG processes with the FieldPro Smart Feeder.

Double the amperage output. Deluxe models have a parallel switch that combines both independent outputs to a single side. This provides a safe and easy way to run large electrodes, stud weld or carbon arc gouge.

Increase profits with this multi-arc machine by completing your most demanding jobs in half the time compared to conventional engine-driven welders. With two arcs in one engine drive, fewer machines are required for a job.

Low OCV stick (VRD) reduces the open-circuit voltage to 15 volts when the welding power source is not in use. This feature is now built in for increased operator safety without compromising arc start performance.

Heavy-duty low-speed industrial diesel engine is designed to operate over 10,000 hours before the first basic overhaul. Backed by worldwide support and service. Thermal overload protection prevents machine damage if duty cycle is exceeded or airflow is blocked.

Independent generators (Deluxe models only) provide the flexibility, dependability and reliability you need to get the job done right. One 4,000-watt-continuous, single-phase generator is fully independent of weld output. Power is available anytime the engine is running, even while welding! The second generator has 20,000 watts continuous available for your high power needs.

Weld generator is warranted by Miller for three years, parts and labor. Engine is warranted separately by engine manufacturer.
Superior Circuit Board Design
Our critical circuit boards are engineered to carry low power and low heat to reduce thermal stress and minimize expansion and contraction. In contrast, our competitor’s boards carry high power and high heat, making them more vulnerable to failure.

Rigorous Testing for Tough, Real-World Conditions
To prove our machines go to the limit, Miller industrial engine drives are put to the test in very extreme environmental conditions.

- **Airborne dust and sand.** Critical components are exposed to abusive airborne particles in a special testing chamber for weeks, helping make sure they’ll operate while facing extreme levels of dirt, dust or sand on the jobsite.
- **Humidity and corrosion.** Inside our Houston testing room, critical components are subjected to extended moisture and corrosive salt exposure to ensure they’ll run even when exposed to humid climates, corrosive coastal environments, and driving rain.
- **Temperature extremes.** Miller industrial engine drives are tested to ensure performance in scorching heat. All Miller engine-driven machines are weld rated at 104 degrees Fahrenheit, but actual tests are conducted up to 122 degrees Fahrenheit to assure peak performance.
- **Jobsite/over-the-road abuse.** Miller industrial engine drives are shaken for hours on transportation bed simulators, subjected to severe vibration, and test-dropped and jerked to ensure they’ll withstand the stresses that can shut down competitive machines.
- **Continuous operation.** Miller industrial engine drives run day and night, in all weather conditions, to assure they’ll perform without interruption in the field.

What Makes Miller Industrial Engine Drives So [Tough]?
**Big Blue® 700 Series Features**

**NEW! SF Model Additional Features**
Advanced RMD® and pulsed MIG processes are now available in an engine driven welder/generator. Discover increased productivity, quality, and improved efficiency in field welding with the new Big Blue 700X Duo Pro SF with FieldPro™ Smart Feeder.

**FieldPro Smart Feeder**
FieldPro Smart Feeder delivers excellent RMD® and pulsed MIG welding up to 200 feet away from the power source with no control cables—twice the distance previously possible. RMD and pulsed MIG processes help reduce weld failures and eliminate backing gas on some stainless and chrome-moly pipe-welding applications.

Durable design reduces downtime. Impact-resistant case and the elimination of feeder control cables provide a solid solution to last in harsh environments.

Full remote control at the weld joint. Simply connect standard weld cables in-line with the FieldPro Smart Feeder and you’re ready to go!

**Lift-Arc™ TIG with Auto-Stop™**

**Arc Start with Lift-Arc™**
- Touch or scratch
- Lift at any angle
- Shielding gas
- Workpiece
- Lift-Arc™ TIG with Auto-Stop™
- Reduces or eliminates sticking
- Reduces or eliminates electrode/work contamination
- Low open-circuit voltage

**Arc End with Auto-Stop™**
- Eliminates need for a remote control
- Maintains shielding gas coverage
- Eliminates tungsten and workpiece contamination
- Eliminates unwanted arc strikes outside the weld area

**Function Guide**

1. Weatherproof Lexan® nameplate is super durable and resists cracking and fading. Color coded for ease of operation.

2. Operator controls. Independent controls for multi-arc welding. “A” controls are for single operator and “B” controls are for a second operator.

3. Self-calibrating digital weld meters with fault code indication display preset or actual weld parameters.

4. Adjustable arc control adjusts DIG when process control is in stick mode and adjusts inductance when process control is in FCAW or MIG mode. The amount of DIG determines how much amperage (heat) varies with stick arc length. Inductance determines the “wetness” of the weld puddle.

5. Amperage/voltage adjust control

6. Hot Start™ provides positive stick electrode starts making it easy to start all types of electrodes and it also works great for bead tie-ins.

7. Great FCAW/MIG performance and arc starts make the Big Blue® 700 Duo Pro arc the best in its class. Easy to run all wires from .023-inch solid wires to large-diameter 5/64-inch flux-cored wires.

8. Lift-Arc™ TIG with Auto-Stop™: See page 3 for benefits.

10. Weld output terminals

11. Separate/parallel switch (only available on Deluxe models). Use switch to select single operator mode (A) or dual operator mode (A/B).

12. Meter maintenance displays show fuel level, engine hours, oil change interval and high temp/low pressure/low fuel shutdown information.

13. Engine oil pressure gauge. Engine stops if pressure is below 22 psi (1.5 bar).

15. Glow plugs assist in cold weather starting (standard on Deluxe models).

16. Engine control switch is used to start engine and then select between auto idle and high speed lock.

---

**International Deluxe model receptacles and circuit breakers**

- 17. 20 A, 120 V receptacles with ground fault
- 18. 120 V circuit breaker and 240 V earth leakage circuit breaker
- 19. 32 A, 400 V three-phase receptacle
  (For matching plug, order 255421.)
- 20. 30 A, three-phase circuit breaker
- 21. 120 and 240 V circuit breakers
- 22. 16 A, 120/240 V receptacles
  (For matching plugs, order 255419 for 120 V and 255416 for 240 V.)

**Deluxe model with USA receptacles and circuit breakers**

- 23. 50 A, 120/240 V receptacle
  (For matching plug, order 119172.)
- 24. 50 A, 240 V, three-phase receptacle
  (For matching plug, order 254140.)
- 25. 20 A, 120 V receptacles with ground fault
- 26. 20 A, 240 V receptacles
- 27. 20 A, 120 V circuit breakers
- 28. 20 A, 240 V circuit breakers
- 29. 50 A circuit breaker
Genuine Miller® Accessories

Full KVA Adapter Cord  
Field  
300517  
NEMA 14-50P to NEMA 6-50R. Adapts engine drive 120/240 V plug to common Millermatic® and Spectrum® 240 V plug.

Full KVA Plug Kit  
Field  
119172  
1-phase, 120/240 V, 50 A plug (NEMA 14-50P)  
254140  
3-phase, 240 V, 50 A plug (NEMA 15-50P)

International Plugs  
Field  
255419  
1-phase, 120 V, 16 A plug  
255416  
1-phase, 240 V, 16 A plug  
255421  
3-phase, 400 V, 32 A plug

Cold Weather Starting Kits*  
Field  
195307  
12-volt intake manifold heater.  
195086  
120-volt oil pan heater element.  
*For extreme cold weather both starting aids can be used in conjunction. These aids are standard on Deluxe model.

Engine Filter Kit  
246988  
Field  
Includes all filters required for proper engine maintenance. Oil filter, primary and secondary fuel filter, and primary air filter.

Spark Arrestor Kit  
195012  
Field  
Prevents particles from leaving the muffler that could potentially start a fire. Mandatory when operating on California grasslands, brush, or forest-covered land, and in all national forests. For other areas, check your state and local laws. Meets U.S. Forest Service standard 5100-1B.

FA-1D Lockable Flame Arrestor Fuel Cap  
043947  
Field  
Fuel cap can be padlocked to prevent vandalism. A built-in flame arrestor prevents flames or sparks from entering the fuel tank.

Vandalism Lockout Kit  
399802  
Field  
Lockable hinged steel panels cover and protect name plate gauges and ignition switch (padlock included).

Cable Holder  
043946  
Field  
Saddle-bag-style cable holder. Convenient wrap-around storage of coiled cable for transportation. Stores 100 feet of 2/0 cable on each side.

Note: For best results do not weld when cable is coiled! Protective cover cannot be used with cable holder.

Protective Cover  
194683  
Field  
Blue water-resistant canvas cover resists stains and mildew, and protects the finish of your welder.  
Note: Protective cover cannot be used with cable holder.

PipeWorx Memory Cards  
For use with FieldPro Smart Feeder only.

300538  
Blank Card  
Used to store weld programs

301230  
System Software  
For free download, visit MillerWelds.com

300557  
Calibration  
Used to calibrate the PipeWorx System. For free download, visit MillerWelds.com

300744  
Inconel  
Pulsed MIG, .045-inch diameter wire, 100% argon

300460  
Range Locks  
Provides ability to set nominal parameter values and ranges for wire feed processes.

300667  
Accu-Power™  
Displays instantaneous power during welding to meet the new ASME requirement for calculating heat input on complex waveform processes (RMD® and pulsed MIG).

301035  
Trigger Select/Hold Option  
Enables trigger select while welding to change processes and parameters without stopping.

MIG (GMAW) or Flux-cored (FCAW)

SuitCase® X-TREME™ 8VS Wire Feeder  
951583  With Bernard™ BTB Gun 300 A  
SuitCase® X-TREME™ 12VS Wire Feeder  
951544  With Bernard™ Dura-Flux™ gun  
Lightweight, voltage-sensing wire feeders include secondary contactor, gas valve, drive roll kit and gun. See literature M/6.42.

SuitCase® 12RC Wire Feeder  
951580  
Lightweight and flexible enough to run a variety of wires up to .062-inch diameter. Includes remote voltage control, drive roll kit and Bernard™ BTB Gun 300 A. See literature M/6.5.

FieldPro™ Smart Feeder  
300935001  
For use with Big Blue 700X Duo Pro SF model only. See page 3 for more information.

MIG (GMAW)/Flux-cored (FCAW) Guns  
See Bernard™ literature SP-BTB for BTB air-cooled MIG guns, and SP-DF for Dura-Flux® self-shielded flux-cored guns.

AC TIG (GTAW) Welding

Dynasty® 210 Series  
For portable AC/DC TIG. See literature AD/4.81.

Stick (SMAW) Welding

2/0 Stick Cable Set, 50 ft. (15 m)  
173851  
Consists of 50-foot (15 m) 2/0 electrode cable with holder, and 50-foot (15 m) work cable with clamp. 350 A, 100% duty cycle.

2/0 Stick Cable Set, 100/50 ft. (30.5/15 m)  
043952  
Consists of 100-foot (30.5 m) 2/0 electrode cable with holder, and 50-foot (15 m) work cable with clamp. 300 A, 100% duty cycle.
Genuine Miller® Accessories (Continued)

Plasma Cutting

Spectrum® 375 X-TREME™ 907529
See literature PC/9.2.

Spectrum® 625 X-TREME™ 907579
See literature PC/9.6.

Spectrum® 875 907583
See literature PC/9.8.

The Spectrum 375 X-TREME and 625 X-TREME come complete with protective X-CASE™ (not shown).

Remote Controls

**Wireless Remote Hand Control 300430**
For remote current, voltage and contactor control. Receiver plugs directly into the 14-pin receptacle of Miller machine. 300-foot (91.4 m) operating range. Wireless antenna kit 300749 recommended.

**Wireless Antenna Kit 300749**
Optional when improved reception is desired.

**RHC-14 Hand Control 242211020**
Miniature hand control for remote current, voltage and contactor control. Dimensions: 4 x 4 x 3.25 inches (102 x 102 x 82 mm). Includes 20-foot (6 m) cord and 14-pin plug.

**Extension Cables for 14-Pin Remote Controls or 24 VAC Wire Feeders**
242208025 25 ft. (7.6 m)
242208050 50 ft. (15.2 m)
242208080 80 ft. (24.4 m)

Trailers and Hitches (Note: Trailers are shipped unassembled.)

**4 West Four-Wheel Steerable Off-Road Trailer 042801**
A heavy-duty 2,550-pound (1,157 kg) capacity trailer designed for use in mines, quarries, and other rough terrain. Has narrow 22-foot (6.7 m) turning radius. Includes 3-inch (76 mm) lunette eye, universal hitch and safety chains.

**HWY-225 Trailer 301338**
A 2,700-pound (1,225 kg) capacity highway trailer with welded steel tubing frame, heavy-duty axle with roller bearing hubs and leaf-spring suspension. Includes jack stand, fenders, lights, and dual hitch with 2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye.

**Cable Tree 043826**
Provides an area to conveniently wrap weld cables and extension cords.

**Dual Hitch 301441**
2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye in one reversible assembly.

**Mounting Specifications**
