The professional welder’s choice.

Designed with the professional in mind, the Big Blue 700X Duo Pro is the best for arc performance, ease of use and reliability. Ideal for dual-operator applications on labor intensive job sites, or job sites with limited space.

**Heavy-duty low-speed industrial diesel engine** is designed to operate over 10,000 hours before the first basic overhaul. Backed by worldwide support and service.

**Double the amperage output.**
Parallel switch combines both independent outputs to a single side. This provides a safe and easy way to run large electrodes, stud weld or carbon arc gouge.

**56.7°C RATED**
Designed to excel in extreme temperatures. See page 2.

**ArcReach**
Parameter control at the wire feeder or pendant without needing a control cord. See pages 2 and 3.

**Increased efficiency.** More arcs and better fuel economy equal increased profits for your business. Estimated savings are 34 percent with a dual-operator unit versus two single-operator units.

**Thermal overload protection** prevents machine damage if duty cycle is exceeded or airflow is blocked.

**Independent generators** provide the flexibility, dependability and reliability you need to get the job done right. Power is available anytime the engine is running, even while welding! Generators provide 20,000 watts continuous power (3-phase) / 12,000 watts continuous power (1-phase).

**Low OCV stick (VRD)** reduces the open-circuit voltage to 15 volts when the welding power source is not in use. This feature is now built in for increased operator safety without compromising arc start performance.
**Big Blue® 700X Duo Pro Features**

**Digital meters** with SunVision™ technology enable welding parameters to be viewed with greater clarity than analog meters — at virtually any angle. Meters can be seen clearly even in direct sunlight.

**Simple-to-set controls** require no elaborate procedure — just select process and weld!

**Standard 14-pin receptacle with Auto-Remote Sense™** for simple connection of remote controls and wire feeders.

**Simple paralleling switch** makes switching from a single operator to dual operators a breeze. Weld up to 400 amps per side when set up in dual-operator mode, or up to 800 amps in single-operator mode.

**56.7°C RATED**

Miller engine drives are tested to perform in high-temperature climates, even at the highest recorded temperature on earth — 56.7°C*. They are designed to excel in extreme heat by optimizing engine cooling, reducing harmful environmental effects.

*According to the World Meteorological Organization Global Weather & Climate Extremes Archive (https://wmo.asu.edu/content/world-highest-temperature)

**Arc control** is beneficial when welding with stick and solid wires for easier fine-tuning of tough-to-weld materials and out-of-position applications.

**Fuel gauge and oil change indicator**

**Industrial USB port.** Quickly upload the latest software and download machine log files to retrieve in-depth information such as diagnostics and machine statistics.

**20,000 watts of pure generator power.** Plug in an extra Miller® inverter-based power source for a second welding arc!

**HD powder coat** with zinc-rich primer protects sheet metal from rust and corrosion.

**Standard features** include ArcReach®, digital preset weld meters, output contactor control, automatic idle, intake manifold heater and oil pan heater.

---

**Big Blue® 700X Duo Pro Technologies**

**Dynamic DIG™ technology**

*Ultra-adaptive arc control.* Unlike conventional DIG that provides a preset amount of short-clearing current, Miller-exclusive Dynamic DIG technology works on a time-based algorithm that automatically adjusts the amount of current required to clear a short. Delivers a smoother more consistent arc that can be tailored to match application, material, fit-up and welder technique.

**ArcReach® technology**

*Parameter control at the wire feeder or pendant without needing a control cord.*

An ArcReach system allows you to change weld settings from your ArcReach feeder or stick/TIG remote, saving a trip to the power supply. ArcReach technology uses the existing weld cable to communicate welding control information between the feeder or stick/TIG remote and the power source. This technology eliminates the need for control cords, and their associated problems and costs.

ArcReach-equipped power sources work with non-ArcReach accessories; however the ArcReach benefit is only realized with the complete ArcReach system. This includes an ArcReach-equipped machine and one or more of the following accessories:

- ArcReach Smart Feeder
- ArcReach SuitCase feeder
- ArcReach Stick/TIG Remote

See pages 6 and 7 for more information.
**Big Blue® 700X Duo Pro ArcReach® System and Accessories**

Big Blue 700X Duo Pro ArcReach system, engine drive (907762), ArcReach SuitCase® 12 feeder with Bernard® S-Gun® (951730), ArcReach Stick/TIG Remote (301325), and ArcReach Smart Feeder with Bernard PipeWorx 300-15 MIG gun (951733).

**ArcReach SuitCase 8 and 12 feeders for MIG or flux-cored welding**
- Remote voltage control
- Polarity indication
- Auto-Process Select™

**ArcReach Smart Feeder for advanced wire processes**
- RMD® and pulsed MIG processes
- Remote voltage control
- Store and recall weld settings

**ArcReach Stick/TIG Remote for stick or TIG welding**
- Remote amperage control
- Arc control for stick
- Auto-Process Select™

**Big Blue® 700X Duo Pro Benefits**

**Easily update technology**
With the industrial USB port, you can easily upload the latest software and download machine log files to retrieve in-depth information from your machine such as diagnostics and statistics. Visit MillerWelds.com/support to download the latest software updates.

**Multi-arc welding**
Multioperator welding has never been easier or more versatile. One dependable engine, two independent arcs with up to 400 amps each. Or plug in additional inverters for a true multioperator work platform. For example, you can add two XMT® multiprocess machines to allow four operators to weld with up to 200 amps each. Premium quality arcs allow operators to work independently with no arc interaction. More arcs provide better fuel economy, improve efficiency and increase profits. You can save about 34 percent with a dual-operator unit versus two single-operator units.

**Jobsite safety**
Reduce the need to walk back to or climb into the truck bed to make process and parameter changes, or turn your machine on/off. ArcReach® technology provides parameter control at the wire feeder or stick/TIG remote and optional wireless interface control provides full front panel control in the palm of your hand, so you can lower the risk of encountering potential jobsite hazards.
## Specifications

1. Self-calibrating digital weld meters with fault code indication display preset or actual weld parameters.

2. Weatherproof Lexan® nameplate is super durable and resists cracking and fading.

3. Operator controls. Independent controls for multi-arc welding. “A” controls are for single operator and “B” controls are for a second operator.

4. Lift-Arc™ TIG with Auto-Stop™: See descriptions below.

5. Hot Start™ provides positive stick electrode starts making it easy to start all types of electrodes and it also works great for bead tie-ins.

6. Great FCAW/MIG performance and arc starts make the Big Blue® 700X Duo Pro arc the best in its class. Easy to run all wires from .023-inch solid wires to large-diameter 5/64-inch flux-cored wires.

7. Pushbutton main control knob used for adjusting amperage/voltage, adjusting arc control, and accessing the service menu.

8. Adjustable arc control adjusts DIG when process control is in stick modes and adjusts inductance when process control is in FCAW or MIG modes. The amount of DIG determines how much amperage (heat) varies with stick arc length. Inductance determines the “wetness” of the weld puddle.

9. USB port allows software updates from a USB drive. A summary file of recorded data from the unit will be saved to a USB drive that is inserted.

10. Glow plugs assist in cold weather starting.

11. Engine control switch is used to start engine and then select between auto idle and high speed lock.

13. Weld output terminals

14. Separate/parallel switch. Use switch to select single operator mode (A) or dual operator mode (A/B).

15. 20 A, 120 V receptacles with ground fault

16. 240 V earth leakage circuit breaker

17. 32 A, 400 V three-phase receptacle
   Note: For matching plug, order 255421.

18. 30 A, three-phase circuit breaker

19. 120 and 240 V circuit breakers

20. 16 A, 120/240 V receptacles
   Note: For matching plug, order 255416 for 240 V.

**Lift-Arc™ TIG with Auto-Stop™**

**Arc Start** with Lift-Arc™
- Touch or scratch
- Lift at any angle
- Reduces or eliminates sticking
- Reduces or eliminates electrode/work contamination
- Low open-circuit voltage

**Arc End** with Auto-Stop™
- While welding
- For Auto-Stop, lift up to terminate arc
- Eliminates need for a remote control
- Maintains shielding gas coverage
- Eliminates tungsten and workpiece contamination
- Eliminates unwanted arc strikes outside the weld area
**Engine Filter Kit  246988 Field**
Includes all filters required for proper engine maintenance. Oil filter, primary and secondary fuel filter, and primary air filter.

**Spark Arrestor Kit  195012 Field**
Prevents particles from leaving the muffler that could potentially start a fire. (Mandatory when operating on California grasslands, brush, or forest-covered land, and in all national forests. For other areas, check your local laws. Meets U.S. Forest Service standard 5100-1B.)

**FA-1D Lockable Flame Arrester Fuel Cap  043947 Field**
Fuel cap can be padlocked to prevent vandalism. A built-in flame arrester prevents flames or sparks from entering the fuel tank.

**Vandalism Lockout Kit  195118 Field**
Lockable hinged steel panels cover and protect name plate gauges and ignition switch (padlock included).

**Cable Holder  043946 Field**
Saddle-bag-style cable holder. Convenient wrap-around storage of coiled cable for transportation. Stores 100 feet of 2/0 cable on each side.

**Protective Cover  194683 Field**
Blue water-resistant canvas cover resists stains and mildew, and protects the finish of your welder.

**Engine Filter Kit**
255416 1-phase, 240 V, 16 A plug
255421 3-phase, 400 V, 32 A plug

**MIG/Flux-cored Welding**

**ArcReach® Smart Feeder  951733**
Includes drive rolls and Bernard® PipeWorx 300-15 MIG gun. For MIG, FCAW, and advanced RMD® and pulse processes. See literature M/6.55.

**ArcReach® SuitCase® 8**
951726 With Bernard® BTB Gun 300 A
951727 With Bernard® S-Gun™
951728 With Bernard® Dura-Flux™ gun

**ArcReach® SuitCase® 12**
951729 With Bernard® BTB Gun 300 A
951730 With Bernard® S-Gun™
951731 With Bernard® Dura-Flux™ gun

Portable feeder designed to run off of arc voltage. When paired with an ArcReach power source, provides remote control of the power source without a control cord — saving time and money. See literature M/6.55.

**SuitCase® 12RC Wire Feeder  951580**
Lightweight and flexible enough to run wires up to .062-inch diameter. Includes remote voltage control, drive roll kit and Bernard® BTB Gun 300 A. See literature M/6.5.

**Stick (SMAW) Welding**

**Weld Leads**
2/0 Stick Cable Set, 50 ft. (15 m)  173851
Consists of 50-foot (15 m) 2/0 electrode cable with holder, and 50-foot (15 m) work cable with clamp. 350 A, 100% duty cycle.

2/0 Stick Cable Set, 100/50 ft. (30.5/15 m)  043952
Consists of 100-foot (30.5 m) 2/0 electrode cable with holder, and 50-foot (15 m) work cable with clamp. 300 A, 100% duty cycle.

**AC TIG (GTAW) Welding**

**Dynasty® 210 Series**
For portable AC/DC TIG. See literature AD/4.81.

**Plasma Cutting**

**Spectrum 375 X-TREME and 625 X-TREME shown.**

**Spectrum® 375 X-TREME®  907529**
See literature PC/9.2.

**Spectrum® 625 X-TREME®  907579**
See literature PC/9.6.

**Spectrum® 875  907583**
See literature PC/9.8.

The Spectrum 375 X-TREME and 625 X-TREME come complete with protective X-CASE™ (not shown).

**MIG (GMAW)/Flux-cored (FCAW) Guns**

See Bernard® literature SP-BTB for BTB air-cooled MIG guns, and SP-DF for Dura-Flux® self-shielded flux-cored guns.
Genuine Miller® Accessories (Continued)

Stick/TIG Remote Controls

ArcReach® Stick/TIG Remote  301325
When paired with an ArcReach power source, provides remote control of the power source without a cord — saving time and money. See literature AY/14.5.

Wireless Remote Hand Control  301582
For remote current, voltage and contactor control. Receiver plugs directly into the 14-pin receptacle of Miller machine. Up to 300-foot (91.4 m) operating range.

Wireless Antenna Kit  300749
Optional when improved reception is desired.

RHC-14 Hand Control  242211020
Miniature hand control for remote current, voltage and contactor control. Dimensions: 4 x 4 x 3.25 inches (102 x 102 x 82 mm). Includes 20-foot (6 m) cord and 14-pin plug.

Wireless Antenna Kit  300749
Optional when improved reception is desired.

Trailers and Hitches (Note: Trailers are shipped unassembled.)

4 West Four-Wheel Steerable Off-Road Trailer  042801
A heavy-duty 2,550-pound (1,157 kg) capacity trailer designed for use in mines, quarries, and other rough terrain. Has narrow 22-foot (6.7 m) turning radius. Includes 3-inch (76 mm) lunette eye, universal hitch and safety chains.

HWY-225 Trailer  301338
A 2,700-pound (1,225 kg) capacity highway trailer with welded steel tubing frame, heavy-duty axle with roller bearing hubs and leaf-spring suspension. Includes jack stand, fenders, lights, and dual hitch with 2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye.

Cable Tree  043826
Provides an area to conveniently wrap weld cables and extension cords.

Dual Hitch  301441
2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye in one reversible assembly.

2-In-1 Document/ Fire Extinguisher Holder  301236
For use with HWY-225. Stores documents and holds a 5-pound fire extinguisher.

Note: Holder shown mounted on trailer. Fire extinguisher not included.

Wireless Remote Hand Control  301582
For remote current, voltage and contactor control. Receiver plugs directly into the 14-pin receptacle of Miller machine. Up to 300-foot (91.4 m) operating range.

Wireless Antenna Kit  300749
Optional when improved reception is desired.

RHC-14 Hand Control  242211020
Miniature hand control for remote current, voltage and contactor control. Dimensions: 4 x 4 x 3.25 inches (102 x 102 x 82 mm). Includes 20-foot (6 m) cord and 14-pin plug.

Wireless Antenna Kit  300749
Optional when improved reception is desired.

Mounting Specifications
