Maxstar® 161 Series

Quick Specs

**Light Industrial Applications**
- Process pipe
- Dairy industry
- Food/beverage industry
- Restaurant/kitchen repair
- Experimental aircraft
- Shipboard installation/repair
- Maintenance repair

**Processes**
- Stick (SMAW)
- Lift-Arc™ TIG (GTAW)
- High-frequency TIG (GTAW)*
- Pulsed TIG (GTAW-P)*
  
  *STH model only.

**Input Power**
- 120–240 V, 1-phase power

**Amperage Range**
- 120 V: 5–130 A (DC TIG)
  - 20–90 A (DC stick)
- 240 V: 5–160 A (DC TIG)
  - 20–160 A (DC stick)

**Max. Open-Circuit Voltage**
- 48

**Net Weight**
- 13 lb. (5.9 kg)

---

**Additional STH model features**

- **Pro-Set™** eliminates the guesswork when setting weld parameters. Use Pro-Set when you want the speed, convenience and confidence of preset controls. Simply select the feature and adjust until Pro-Set appears on the display.

- **High-frequency** for non-contact arc initiation that reduces tungsten and material contamination.

- **Pulse.** Pulsing can increase puddle agitation, arc stability and travel speeds while reducing heat input and distortion.

---

**Full function remote control** for precise amperage control for critical welds on thin materials (6-pin fingertip or foot control available.)

**Selectable trigger configuration** allows the operator to choose standard or 2T trigger method to meet the application.

**Low OCV stick** is a simple design that reduces the open-circuit voltage to 12–16 volts when the welding power source is not in use. This circuit design is now built into the Maxstar 161 eliminating the need for add-on voltage reducers.

**Hot Start™** adaptive control provides positive arc starts without sticking.

**Power factor corrected (PFC)** for optimum performance especially on 120 volts — reduces nuisance breaker tripping.

**Stick-Stuck** detects if the electrode is stuck to the part and turns the welding output off to safely and easily remove the electrode. Menu selectable.

**Superior stick arc performance** even on the difficult-to-run electrodes like E6010.

---

Power source is warranted for three years, parts and labor. Original main power rectified parts are warranted for five years.

Maxstar® 161 Packages

STL Standard Package 907710
STH Standard Package 907711

Packages include:
- Maxstar 161 power source
- 6.5 ft. (2 m) 120-volt and 240-volt power cords
- Stick electrode holder with 13 ft. (4 m) cable and 25 mm Dinse-style connector
- Work clamp with 10 ft. (3 m) cable and 25 mm Dinse-style connector
- One air-cooled TIG torch connector (195234)
- Handle/shoulder strap
- Quick-reference guide

STL TIG/Stick Package 907710001
STL TIG/Stick Package with Remote Fingertip Control 907710002
STH TIG/Stick Package with Remote Fingertip Control 907711001

Packages include:
- Maxstar 161 power source
- 6.5 ft. (2 m) 120-volt and 240-volt power cords
- X-CASE™ — provides protection in transport and storage
- RCCS-6M remote fingertip control (195184)
- Weldcraft™ A-150 (WP-17) 12.5 ft. (3.8 m) TIG torch with connector
- Stick electrode holder with 13 ft. (4 m) cable and 25 mm Dinse-style connector
- Work clamp with 10 ft. (3 m) cable and 25 mm Dinse-style connector
- Flow gauge regulator with gas hose
- AK2C accessory kit with short back cap, nozzles, collets, collet bodies, and 2% ceriated tungsten electrodes (.040, 1/16, and 3/32 in.)
- Handle/shoulder strap
- Quick-reference guide

### Remote Controls and Switches

- **RCCS-6M** (6-pin plug):
  - Stock No.: 195184
  - 13.25 ft. (4 m) cord
  - 26.5 ft. (8 m) cord
- **RFCS-6M** (6-pin plug):
  - Stock No.: 195183
  - 13.25 ft. (4 m) cord
  - 20 ft. (6 m) cord
- **RMS-6M** (6-pin plug):
  - Stock No.: 195269
  - 26.5 ft. (8 m) cord

### TIG Torches

- **Weldcraft® Air-Cooled Torches**
  - WP-17-12-R A-150 (WP-17):
    - 12.5 ft. (3.8 m) TIG torch with gas thru connector.
  - WP-17-25-R A-150 (WP-17):
    - 25 ft. (7.6 m) TIG torch with gas thru connector.
- **Air-Cooled TIG Torch Connector** 195234
  - 25 mm (small) Dinse-style gas thru for one-piece air-cooled torch.

---

**X-CASE™**

Sturdy case provides ultimate protection for transport and storage. Also features convenient top carrying handle and side recessed hand grips. Store the Maxstar 161, accessories and gear in this generous case to be ready to go at any time. Dimensions (H x W x D): 13 x 10.5 x 30.625 in. (330 x 267 x 778 mm).

**Full KVA Adapter Cord** 300517
