| **Factory-Installed Options** | • Continuum™/Auto-Continuum™  
  • Axcess®/Auto-Axcess™  
  • Dynasty® 280 DX | • Continuum™/Auto-Continuum™  
  • Dynasty® 280 DX | – | • ANY brand  
  • ANY welding power source (old or new)  
  • ANY welding process |
| **Field-Installed/Activated Options** | • 14-pin compliant power source  
  (see MillerWelds.com/insight)  
  • Axcess®/Auto-Axcess™ | • Continuum™/Auto-Continuum™  
  • Dynasty® 280 DX | • PipeWorx 400 | |
| **Requirements** | • Internet connection  
  (wired/wireless) | • PC and Ethernet connection | • PC and Ethernet connection | • PC and Ethernet connection* |
| **Capabilities** | • Productivity monitoring  
  • Weld parameter verification  
  • Simplicity/basic monitoring  
  • Goal-setting | • Prevent/detect missed welds  
  • Minimize overwelding/underwelding  
  • Electronic work instructions  
  • Measure overall equipment effectiveness (OEE) | • Real-time contract, spool, joint documentation  
  • Enterprise resource planning system integration (ERP)  
  • Productivity/quality metrics | • Prevent/detect missed welds  
  • Minimize overwelding/underwelding  
  • Monitor mixed-brand fleet  
  • Out-of-parameter welds detected |
| **Data Storage** | • Cloud-based | • Local server or PC | • Local PC | • Local server or PC* |

*When used with Insight Centerpoint
**Insight Core™**

Simple, internet-based welding information solution.
- Reports operator productivity
- Verifies weld parameters
- Has built-in Wi-Fi/Ethernet connectivity
- Leverages existing investments

**Insight Centerpoint™**

Advanced, real-time operator feedback solution.
- Prevents missed welds
- Enforces proper weld sequences
- Drives consistent weld quality
- Provides operators with visual work instructions

**Insight Pipe and Vessel**

Powerful pipe documentation solution.
- Delivers total traceability for pipe spool fabrication
- Automatically records parameters by weld pass
- Relates welds to specific contract/spool/joint
- Reports operator, amps, volts, wire feed speed, heat input

**Insight ArcAgent™**

Premium solution for any brand of power source.
- Measures amps, volts, wire feed speed, gas flow
- Reports arc-on time, operator productivity
- Has the ability to integrate with Insight Centerpoint
- Features weld process monitoring with real-time notification
