New!

Largest viewing area in the industry. 13.4-square-inch viewing area with wide screen format provides unsurpassed view and eliminates tunnel vision.

Four arc sensors and four modes: weld, cut, grind and X-Mode. X-Mode prevents sunlight from darkening the lens before welding starts and low-amperage lens opening from obstructed sensors.

NEW! headgear with oversized comfort cushion provides extensive adjustability, settings, and improved support for better fit and comfort.

Features InfoTrack™ advanced lens technology:

- Tracks and displays arc time
- Allows operator to set time, alarm, and timer
- Provides multi-language help menu

Digital controls easily allow welder to adjust shade, delay, and sensitivity.

Meets ANSI Z87.1+ and CSA standards.

TRUE BLUE®
3YR. WARRANTY

Auto-darkening lens is warranted for three years, parts and labor.
